The 6-question AI consultant checklist

Take it into any meeting, including one with us.

ThirdVision
Your AI Growth Department

Ask every AI consultant on your shortlist these six questions. Note what they say against the good signs and red flags. The full guide, with what a good answer sounds like, is at **thirdvision.com.au/choose-an-ai-consultant**.

	Ask	Good sign	Red flag	Their answer
1	**Where does my data go?**	A written map of what is stored where, and who can access it	"The platform handles it"	
2	**Show me AI running today**	A live system, how long it has run, what went wrong	Demos and "coming soon" only	
3	**Who does the work?**	A named senior person, accountable after the sale	"The team"	
4	**What goes first?**	Options ranked by value and risk, in your numbers	Open-ended exploring	
5	**After go-live?**	Monthly monitoring, fixes and a short report	A handover doc and an hourly rate	
6	**My team?**	Training, an AI policy, less grind for staff	No mention of people
