MISSION-READY RETIREMENT & LEGACY STRATEGIES

## RANDY BRACEWELL

Randy Bracewell served 21 years in the U.S. Navy's elite Nuclear Power Program, serving aboard the USS Alaska (SSBN-732) Blue Crew, the USS California (CGN-36), and the USS Carl Vinson (CVN-70). His years of service gave him firsthand insight into the unique financial challenges and opportunities faced by military families.

Following his military career, Randy transitioned into the private sector, where he earned a Master of Science in Information Technology and an MBA. He went on to hold leadership roles in data center management with Pacific Gas and Electric Company and Sandia National Laboratories, bringing strategic expertise and operational discipline to every organization he serves.

A chance meeting with Merle Gilley and Jenn Seeger introduced Randy to the world of retirement income planning. Through that experience, he learned many of the financial strategies he wished he had known before retiring from the military. That discovery sparked a new mission — to help fellow service members and their families gain the financial knowledge and guidance they deserve.

Today, Randy is the founder of Warrior Wealth Group, an organization dedicated to serving the military community. Warrior Wealth Group exists to serve those who served—helping military members, veterans, and their families build financial independence and retire with confidence, security, and peace of mind.
