Unlock Your Child's Academic Potential with Our Targeted Term 3 Courses!

Our Term 3 courses are specifically designed for Year 4 students who are aiming for **selective school placement or independent school scholarships**.

We know that early, focused preparation makes all the difference, and our courses are designed to give students a meaningful head start, laying the strong foundations they need to meet the demands of these challenging exams.

Through a rigorous yet engaging curriculum, our courses systematically sharpen students' abilities across all the critical areas assessed in selective and scholarship exams. Each lesson is thoughtfully structured to introduce and reinforce essential concepts, ensuring that students develop a deep and confident understanding that grows progressively throughout the term.

Every child has the potential to achieve extraordinary things, and our role is to equip them with the skills, strategies, and self-belief to make that potential a reality. Whether your child is just beginning to explore the idea of selective school or is already set on earning a scholarship, our Term 3 courses will provide the structured support and expert guidance they need to truly excel.

Enrol your child today and give them the competitive edge that will carry them confidently into their future.

Year 4 WEMT Course

The Year 4 WEMT (Writing, English, Maths, and Thinking Skills) course is back with an updated curriculum, designed to build the essential skills students need to succeed in selective high school and independent school scholarship exams. Through structured, progressive lessons, students will develop genuine competency across all key areas, setting them up for long-term academic success. By actively engaging with the WEMT course, students will gain:

-  **Strong Exam Foundation:** Build confidence and competency across the core exam areas of reading comprehension, written expression, mathematical reasoning, and critical thinking.
-  **Effective Writing Strategies:** Learn how to plan, structure, and organise persuasive and creative writing with clarity, purpose, and impact.
-  **Reading Comprehension Mastery:** Develop proven techniques to interpret challenging texts, identify key ideas, and answer multiple-choice questions accurately and confidently.
-  **Maths Made Easy:** Gain a thorough understanding of essential mathematical concepts, key formulas, and effective problem-solving techniques through clear and engaging instruction.
-  **Thinking Skills & Problem-Solving:** Sharpen critical thinking and analytical reasoning through stimulating exercises that challenge students to think independently and creatively.
-  **Choose the learning style that suits you best:** We offer two flexible WEMT course options:

WEMT (Face-to-face learning)	EMT (Live Extra Zoom lesson)

Thinking Skills for Selective (Thursday)

The Thinking Skills for Selective course is specially designed to develop the critical thinking and problem-solving abilities that are essential for success in the selective school placement test and beyond.

We understand that the thinking skills component is one of the most demanding aspects of the selective school exam, requiring students to think quickly, logically, and independently under timed conditions. This course directly addresses that challenge by providing structured, targeted preparation that builds both skill and confidence from the ground up.

With a comprehensive focus on the thinking skills component of the exam, this course covers a diverse range of topics and equips students with the tools, techniques, and strategies needed to approach even the most challenging questions with clarity, creativity, and composure.

Each lesson is thoughtfully structured to introduce new concepts progressively, ensuring students develop a deep and thorough understanding that grows stronger week by week. Through a carefully curated mix of engaging activities, thought-provoking exercises, and real exam-style practice, students will sharpen their ability to analyse information, identify patterns, evaluate arguments, and draw well-reasoned conclusions — all critical skills for excelling in the selective school placement test.

Course Overview:

- Through engaging activities and exercises, our dedicated tutors guide students to become confident and proficient critical thinkers, capable of tackling complex problems across a variety of subject areas.
- Students will develop strong analytical and reasoning skills, learning how to evaluate information, identify patterns, and draw well-reasoned conclusions — all essential abilities for the selective school exam.
- Effective problem-solving strategies are at the heart of this course. Students will learn structured approaches to breaking down complex questions and arriving at accurate solutions efficiently.
- As students progressively build their thinking skills throughout the course, they will gain a deeper sense of academic confidence and a greater ability to perform under exam conditions.
- This course is open to Year 4 students aiming for selective school placement and covers all the essential topics needed to excel in the thinking skills component of the test.

Year 4 Writing Course (Thursday)

Fuel Creativity. Build Confidence. Master the Art of Writing.

The Year 4 Writing Course is designed to unlock every student's full writing potential, nurturing both the technical precision and the creative confidence needed to excel in academic writing, NAPLAN, and selective school exams. Through engaging, skill-rich lessons, young writers are guided to find their voice, develop their craft, and take genuine pride in their written work.

Our experienced teachers deliver lessons, ensuring that every child receives the support and challenge they need to grow. Whether preparing for school assignments, sharpening skills for NAPLAN, or building the foundation for selective school exam success, this course provides the perfect balance of structure, creativity, and encouragement.

Creative Writing Comes to Life

This term, students will go beyond the basics and immerse themselves in the art of storytelling and creative expression. Through exciting weekly prompts and imaginative writing tasks, students will:

- Create compelling, memorable characters and vivid, imaginative settings that draw readers in.
- Develop engaging story plots with a clear and captivating narrative arc from beginning to end.
- Learn to write realistic, natural dialogue that brings characters and stories to life.
- Experiment with different voices, perspectives, and writing styles to discover their own unique creative identity.

Core Writing Skills

Alongside creative development, students will build the essential technical skills that underpin all great writing:

- Expand vocabulary and master the use of descriptive, precise language to elevate their writing.
- Strengthen paragraph structure and sentence fluency for clear and cohesive expression.
- Develop a confident command of grammar, punctuation, and spelling.
- Practise the art of editing and revision, learning to critically review and refine their own work to produce polished final drafts.
