Year 5 Writing for Selective (CBT)

Are you ready for the challenge of the Selective School Writing Test?

Success in this exam requires more than just good grammar—it demands the ability to think critically, argue logically, and adapt instantly under pressure.

Our new **Year 5 Writing for Selective (CBT)** course is specifically engineered to bridge the gap between good writing and exam excellence. We focus on the two foundational pillars of success: **Narrative** and **Persuasive** mastery.

Students learn essential writing skills through the most frequently tested formats, including news reports, diary entries, reviews, advertisements, and advice pieces.

Term 2 Roadmap

Each week targets a high-frequency writing form to build versatility:

Week 1: Story

Week 4: Explanation

Week 7: Advertisement

Week 10: Speech

Week 2: Diary Entry

Week 5: Advice Sheet

Week 8: Persuasive

Week 11: Discussion

Week 3: News Report

Week 6: Review

Week 9: Letter

Our Secret Weapon: The "One Topic" Method

Unlike traditional courses that jump between random subjects, we use one central topic to explore all writing forms. This unique pedagogical approach offers distinct advantages:

- **Form Shapes Thinking:** Students learn that changing the format changes the mindset. A story captures emotion, while a news report demands clinical objectivity.
- **Cognitive Efficiency:** By keeping the topic constant, students don't waste energy "inventing" new ideas. Instead, they focus entirely on mastering the structure and tone required.
- **Separating Fact from Feeling:** We teach students how to isolate emotion, opinion, and evidence—ensuring they never accidentally include personal bias in an objective task.
- **Exam Agility:** Students train their brains to switch writing styles instantly—an essential skill for the CBT.
- **Why it works:** Because examiners reward strict adherence to form, this method makes correct structure second nature.
