

TECHNICAL SPECIFICATION SHEET

# BESTIA MINI

Compact electric oven | Base-model data with proposed Pizza Arch styling

**1 PIZZA**

Approximately 13 in diameter

**3 kW**

220 V source configuration

**99.2 lb**

Base oven weight

|                                 |                                        |
|---------------------------------|----------------------------------------|
| Exterior W × D × H              | 25.59 × 20.87 × 13.78 in               |
| Depth with original handle      | 24.02 in                               |
| Chamber W × D × H               | 16.54 × 16.54 × 6.69 in                |
| Cooking surface                 | Vesuvian clay                          |
| Heating system                  | Upper/lower sheathed Incoloy elements  |
| Heating method                  | Direct radiant heat                    |
| Controls                        | Touchscreen; separate top/bottom power |
| Manufacturer temperature rating | 842°F                                  |
| Pizza Arch requested rating     | 942°F - pending confirmation           |
| Phase / frequency / amperage    | Not specified in supplied source       |

Base dimensions exclude the added hood and revised handle. Final overall dimensions, weight, U.S. electrical configuration, installation clearances and certifications must be confirmed before installation.

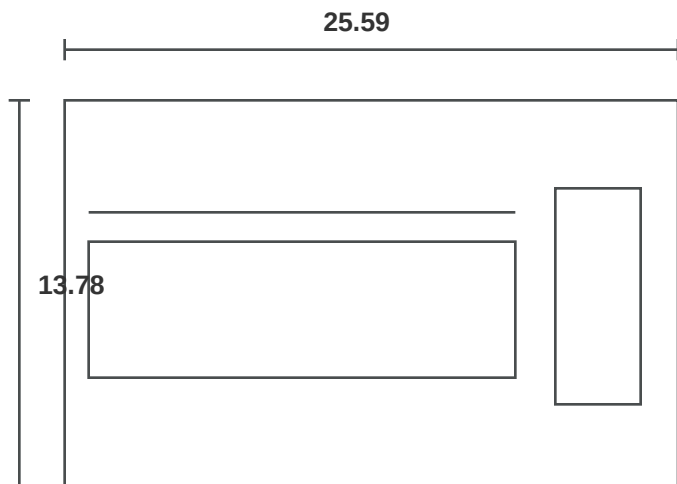

Source: Sudforni Spinello technical sheet, February 1, 2021. Values converted to inches and pounds; rounded to two decimals and one decimal respectively. Rendering is a design concept.

**DIMENSIONAL REFERENCE**

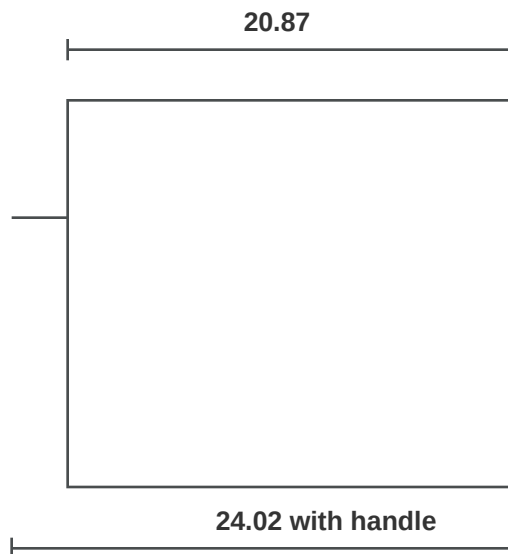

# BASE OVEN GEOMETRY

Dimensions in inches. Schematic views are not to scale; added hood not included.

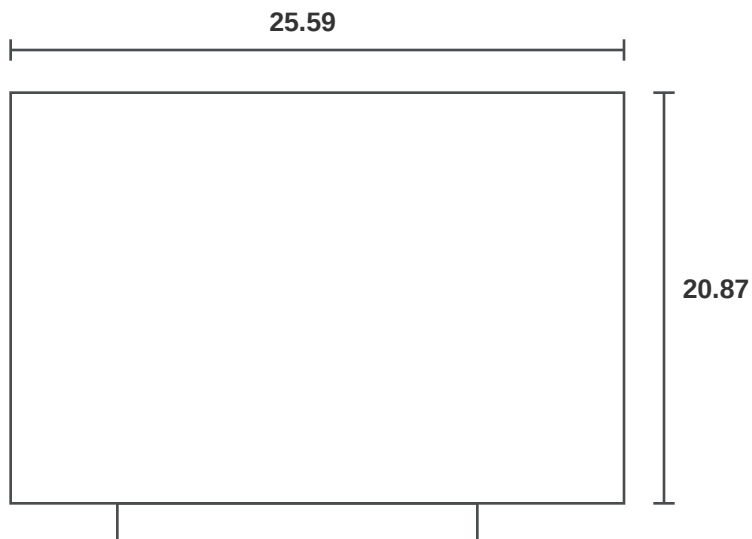

## FRONT

## RIGHT SIDE

## TOP

## CHAMBER

Width: 16.54 in  
Depth: 16.54 in  
Height: 6.69 in

Hood envelope, revised handle projection and door-open clearance are not dimensioned in the supplied sheet.

Reference geometry only. Use the final approved manufacturer drawing for installation.
