Step By Step Process:

1 Connection phase 10 minutes*

Get in touch with our friendly team, to discuss your dream cabin project!

You can do this by:

- Calling
- Stopping by our location. "Best Option"
- Filling out a website contact form.

2 Planning phase 1-4 hours*

We set down with you and go over the following details:

- Choose a cabin shell.
- Choose a interior floor plan
- Go over pricing, and financing

3 Initiating phase 1-2 months*

- To get started you will make a 30% deposit on your structure.
- We will help you get permits, and structural plans for county approval.
- Once approved, we will enter your cabin into production.
- We will then schedule contractors to build the foundation.

4 Build phase 2-4 months*

- Your cabin shell will be built by our highly skilled team.
- During build process, your structure will be inspected to the to meet state regulation.
- Our team along with trusted contractors will finish the interior of your cabin, including electrical and plumbing.

5 Delivery and installation 1- day*

- Once the structure is complete, a contracted delivery company, will delivered the assembled unit to the site.
- The structure will then be set on the foundation.

6 Final hookup, and site work 1-40 days*

- All utility's will be hooked up by specialized contractors.
- Any needed decks, porches, or steps, will be constructed.
- Your cabin is complete and ready for a lifetime of use!
