

Health Certificate Information

Please complete this form and email it to walkervet@gmail.com within **five business days** of your appointment along with vaccine records (including rabies certificate).

For specific travel requirements, visit the USDA website: <https://www.aphis.usda.gov/aphis/pet-travel>. If traveling internationally with a dog and returning to the US, review specific CDC requirements here: <https://www.cdc.gov/importation/dogs/index.html>. Dogs traveling to high-risk rabies countries and re-entering the US must have a "Certificate of U.S. Issued Rabies Vaccination" before departure, in addition to country-specific requirements and a health certificate.

Schedule a consultation prior to international or Hawaii travel to ensure your pet has all requirements for travel. All destination and airline requirements must be met before a health certificate is issued. For countries requiring USDA endorsement, the certificate is submitted electronically and returned by email or mail per country's requirements, typically within 5-7 business days. For questions or to schedule a consultation, please contact us via email or at (209) 478-8883.

Effective August 3, 2026: Mexico will require USDA-accredited veterinarians to issue New World screwworm inspection documents for **pet dogs within 5 days of travel**.

Owner Name:		Owner Email:	
Pet's Name:		Species: ☐ Dog ☐ Cat
