Paying For Long-Term Care

THE ESSENTIAL GUIDE TO UNDERSTANDING AND FUNDING SENIOR CARE

OUR APPROACH

We work with families to help them get the senior to the care they need with the least amount of stress to the senior or their adult children. We will purchase the house in a few weeks, as-is, compared to the family having to spend 3 to 6 months, and often a lot of money, to get the house updated, repaired, and cleaned out before listing it. We work with the family to eliminate the stress involved in selling a home—at no cost to them!

THE HOUSE

The last thing that seniors and their families need is added stress. We buy the house in as-is condition. The money that families save in not having to make repairs and updates, or pay realtor commissions, means that they get the money they need, when they need it, to get their senior the care that they deserve.
