INTRODUCTION

Abacus : The concept sprung to life from the innate desire to execute the concept and vision of an architect exactly the way it was envisioned. During the boom of Construction in Bahrain, Projects were being awarded and executed with unbelievable speed leading to several compromises, quite often leaving both the Consultant and the client dissatisfied.

What started as an attempt to cater to the needs of the niche clients and markets who really appreciated quality work and professionalism, the enterprise grew and flourished into the present day Abacus, where we have a fine blend of Creativity, Planning, Craftsmanship and Quality harmoniously working together to deliver the need and dreams of our clients.

CERTIFIED

ISO 9001 | ISO 14001 | ISO 45001

Quality
Professionalism
Dependability

OUR VISION

To seek and obtain perfection in every endeavor, where Quality and Craft are our cutting edge. To employ the latest technology, systems, practices and procedures to ensure best quality Interior Design and Fit-out work.

OUR STRENGTH

Leadership:

- With a clear vision for the future
- Who value professionalism and commitment
- Sound Technical Knowledge & wide industry experience

The Team:

- Wide and critical skills to cater to all kinds of work
- That works with perfect and ethical team spirit to execute leadership vision
- That develops young and enterprising craftsmen to use innovative ideas and techniques

CORPORATE INFORMATION

We aim to provide reliable advice grounded in practicality and experience at each level of the project. Legal benchmarks and Health/Safety standards are adhered to diligently.

Our move is designed to compliment our clientele's specific needs and to achieve it with zero compromise on quality.

SERVICES OFFERED

We are an Interior Design & Contracting turn-key solutions provider with a complete suite of solutions for Office Interiors, Shop Fit outs, Hotels, Restaurants, Villas & Apartments including Furniture Supply & Installation.

Our designers assimilate modern and traditional designs with a unique blend of tradition and modern, creating a space that is less of the conventional and more of an expression of our client's personality. Our finely tuned vision, proficiency and reputed business practices serve to sculpt the environment that our client desires.

WE SUPPLY AND INSTALL

All kind of Furniture, Office Work stations, Restaurant furniture, Doors, Gypsum Partitions, Gypsum Moldings and cornices, Skirting, Ceiling, Flooring, Parquet, Blinds & Curtains.

ETHICS

We consistently build our business reputation by adhering to core values and ethical standards. We are firm believers of values and proper etiquette and we take pride in conducting our services honestly and honorably. We offer professional consultation and advise based on our rich experience and keeping our work ethics with Customer satisfaction as our primary motto.

CONFIDENTIALITY

We are committed to maintaining the highest degree of confidentiality in all of our dealings with past, current and potential clients. This encompasses personal as well as commercial information received in the course of providing the business services. Our standards apply uniformly to all our Customers, Suppliers and Associates.

DUTY OF CARE

We wholeheartedly assure that our actions and advice always conforms to the relevant laws of the land. We fervently believe in respecting the human rights of people from the organizations we deal with, the local environment and the wellbeing of the society at large.

INTELLECTUAL PROPERTY AND MORAL RIGHTS

We retain the moral rights and ownership of all intellectual property that we create unless agreed otherwise with our clients. Furthermore, we respect the moral and intellectual copyright vested in our clients' intellectual property.

CONTRACTS

Contracts are prepared after the submission of a detailed proposal which includes the aim of construction, activities, costs, timelines and deliverables.

We are committed to comply with all Contractual obligations even when external funding provider requires further official parameters and controls.

PROFESSIONAL CONDUCT

Integrity is the cornerstone of our work practices. Our partners and associates are aware and aligned to respect the objectivity that drives our judgement as it is guided by the needs & interests of our clientele.

This is driven by a simple pact - **"We adhere to the highest professional standards on our responsibilities, and this inspires our customers to be our highest cheerleaders. Nothing more, nothing less."**

QUALITY ASSURANCE

From concept to finishing, we take great care and pride in the quality that we deliver. Abacus is a fit-out provider firm created by a consultant and you find that particular exacting standards throughout each light, crevice and texture of our job. Each project has regular review meetings to facilitate troubleshooting and customization that surmounts any and every bottleneck on the way.

Promises Given | Promises Delivered | Excellence Guaranteed. You have every right to expect a timeless classic when we are involved – this is our eternal promise.

ISO 9001 QUALITY MANAGEMENT
ISO 14001 ENVIRONMENT MANAGEMENT
ISO 45001 OCCUPATIONAL HEALTH & SAFETY MANAGEMENT

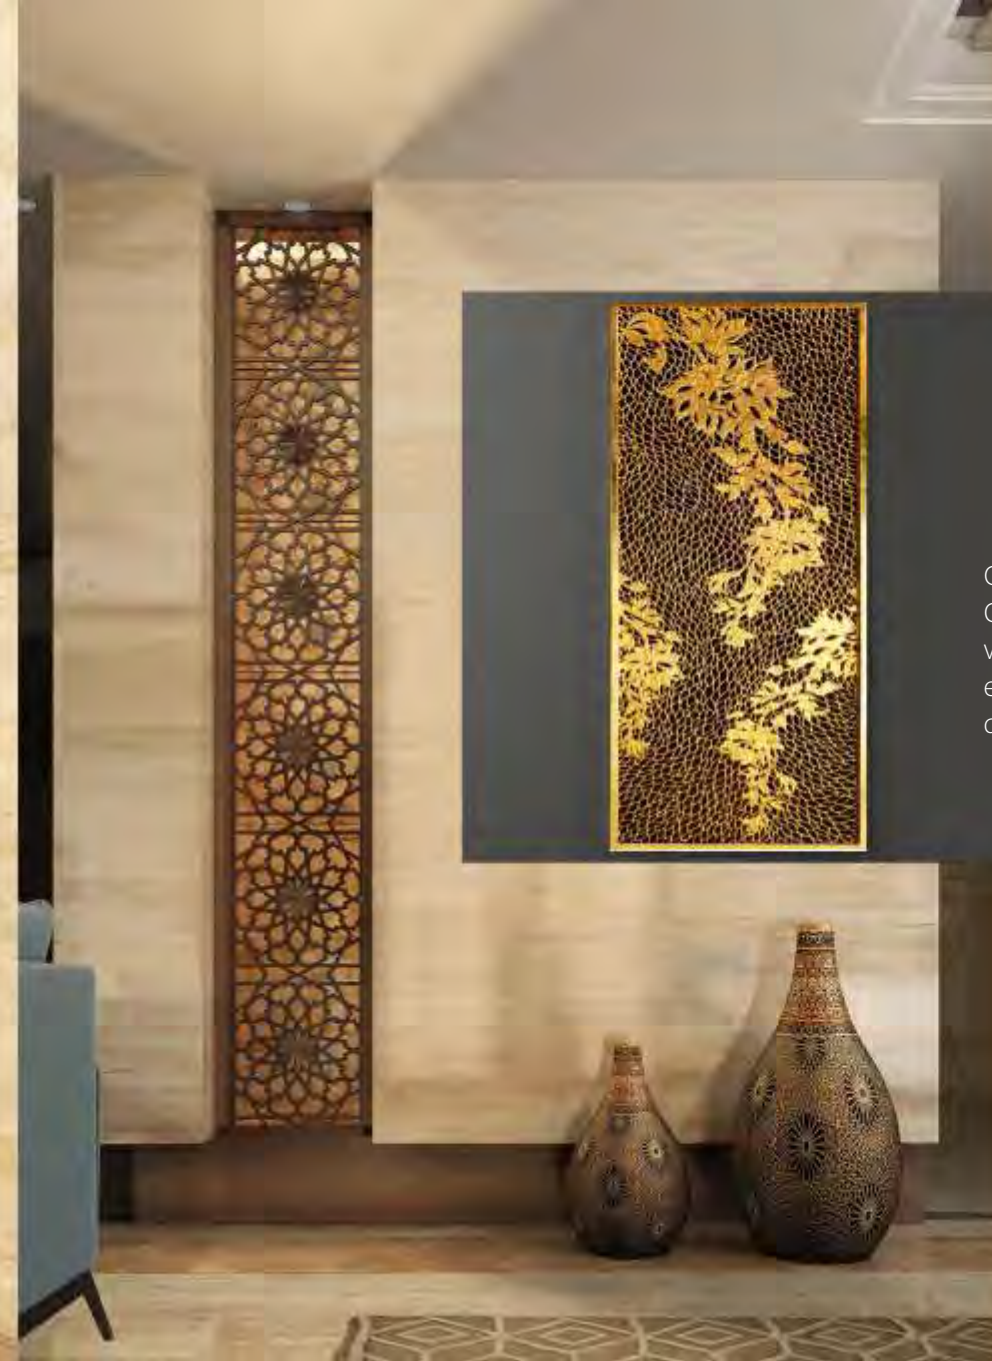

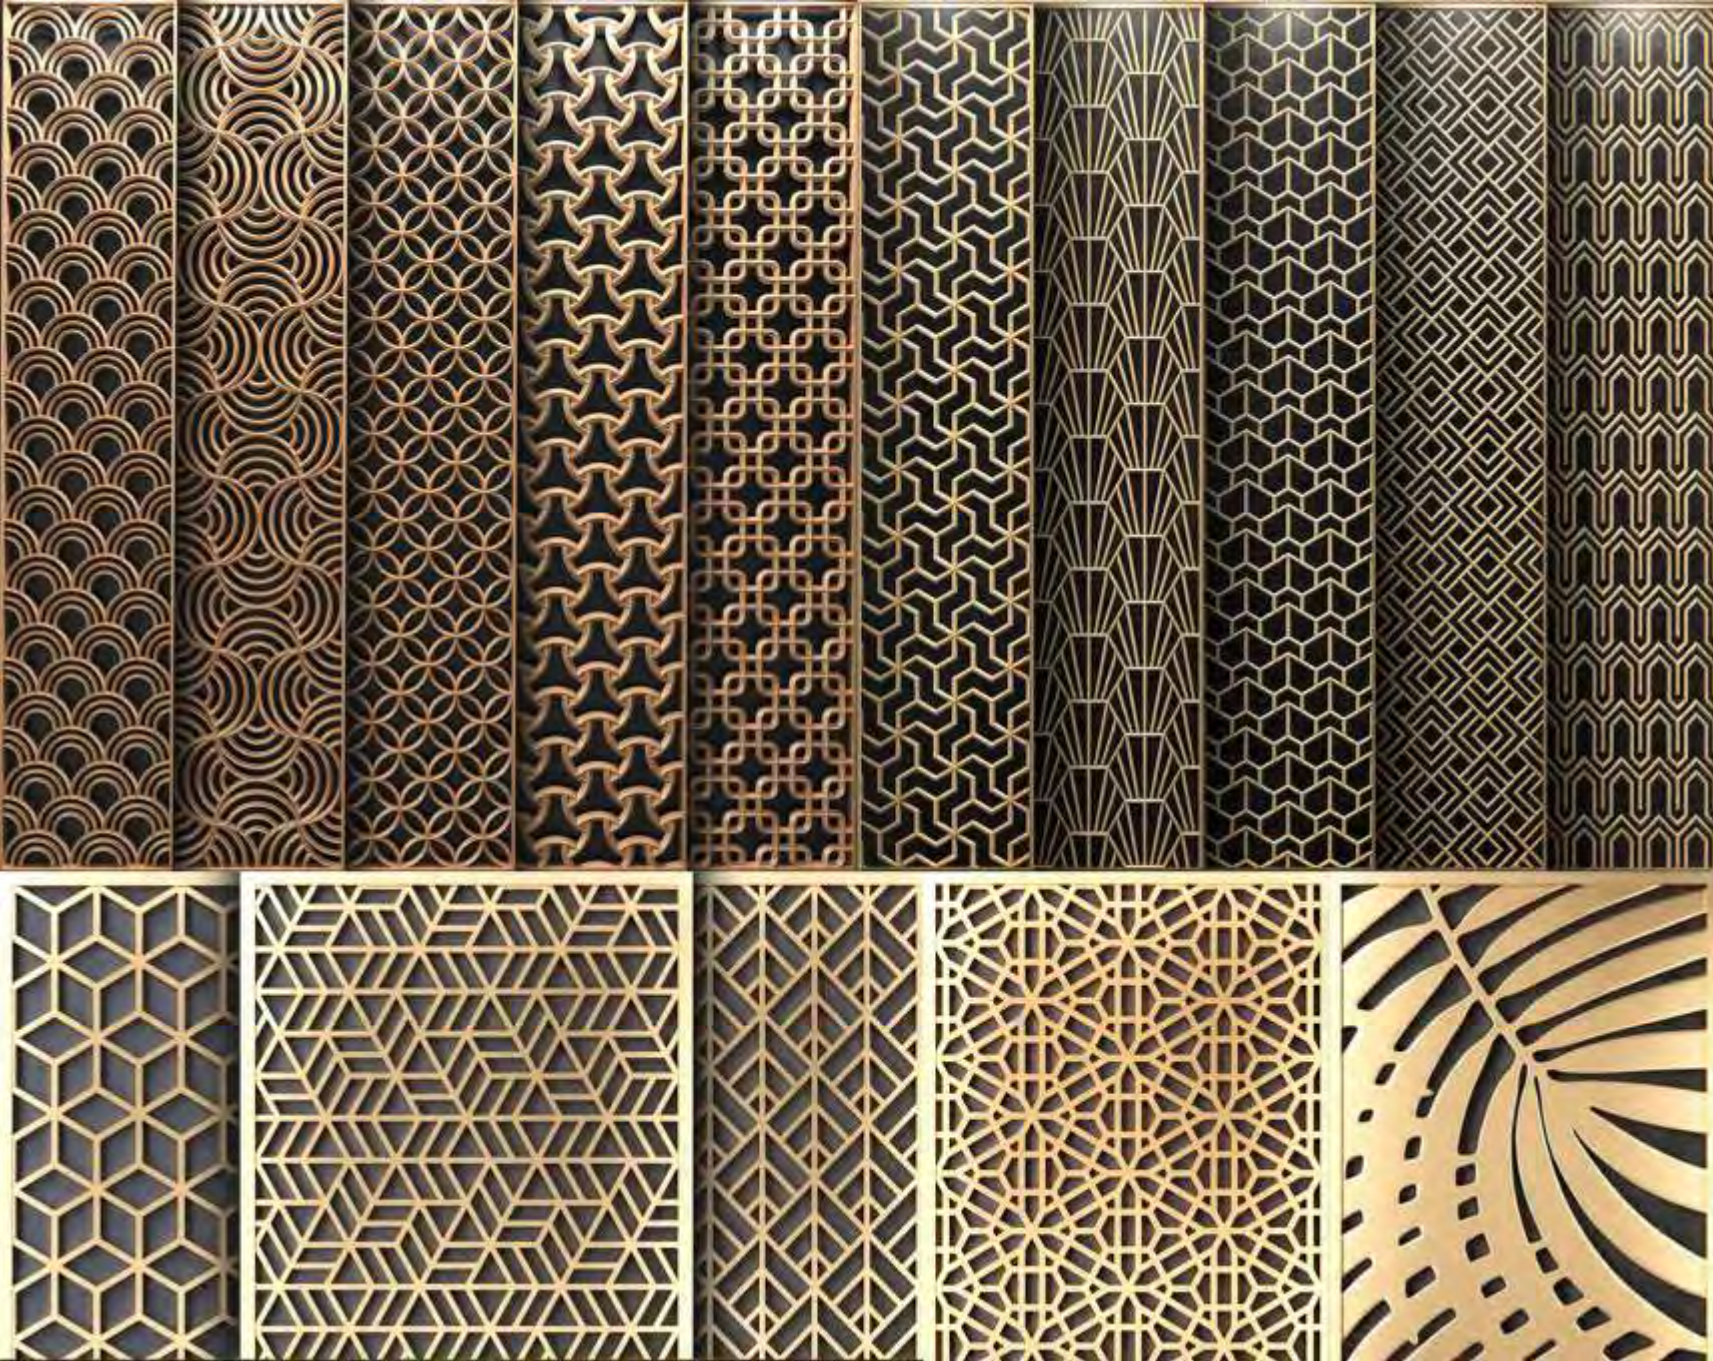

JOINERY UNIT

Our State of the Art Joinery is a half production unit and half creative lab. Wooden Doors, Door Frames, Wooden Skirting, Wooden Ceiling etc., you name it, we have done it.

Computer aided drafting and latest bleeding edge tech comes together to breathe life into wood that captures the soul of the material and allows it to bring our creative designs to life. Our craftsmen are dedicated to their craft and are empowered to bring any concept to reality.

CNC AND DECORATIVE RELIEF PANELS

Our team of trained workers manufacture and supply CNC cut door carvings, wooden wall panels, sign boards, wooden frames, moldings, furniture, interior and exterior decorations in line with clients requirement and design.

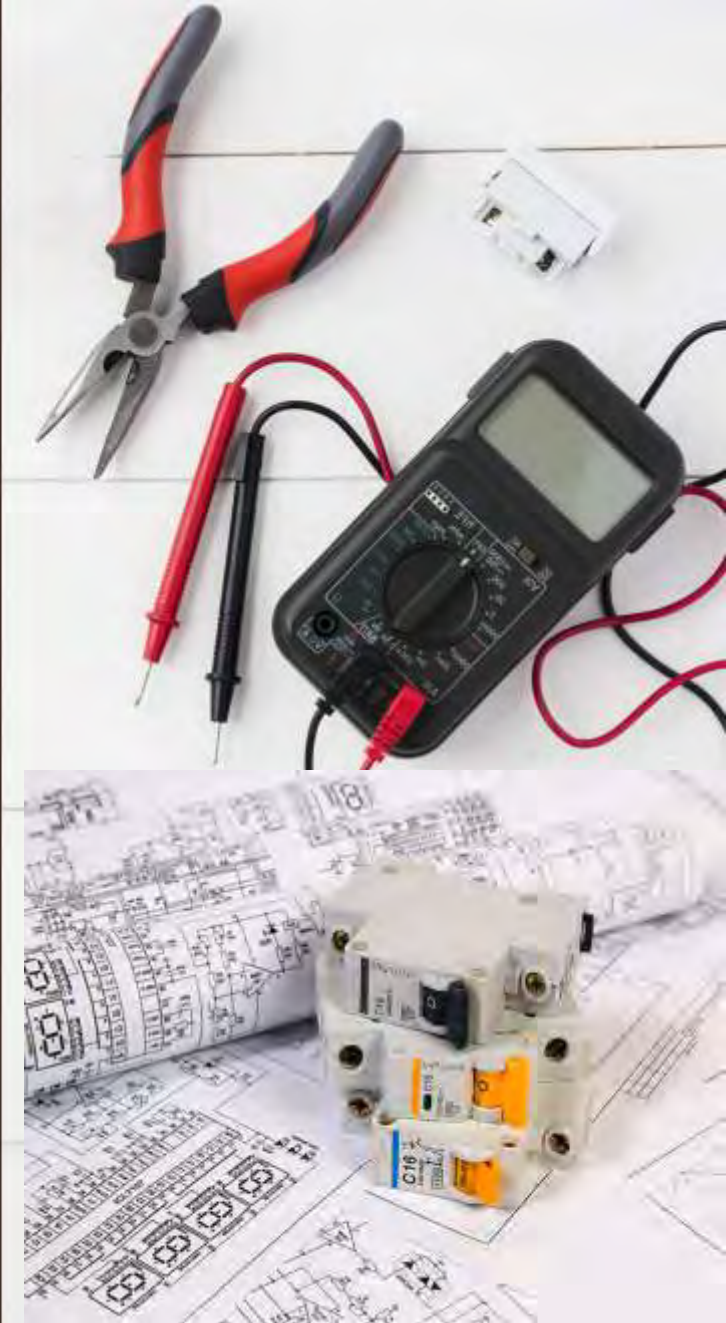

MEP DIVISION

ELECTRICAL

Our team will work with you to design, build and install efficient and sustainable Industrial Electrical solutions, tailored to your specific needs. We prepare electrical layout drawings and schematic drawings based on architectural drawings. We determine your electrical specifications required and list our materials and components accordingly. We decide on the main distribution load locations and lay conduits and trunking in the building as necessary. We also do installation of distribution boards and main switches, switched and sockets fixing, pulling of cables from distribution boards to switched, light / fan points and socket outlets. Our team shall also do testing of the installations and obtain the required test certificates. We handover the documentation and operation manuals for projects in the completion stage. Additionally, we also make good of the finishes by sealing the holes and penetrations made.

PLUMBING

Our well-trained team provides best solutions to your plumbing and drainage requirements. Our services include drawing and designing of pipes for commercial and residential buildings, determining the best suitable pipe layouts, fixing of sanitary ware and all kitchen equipment setting as well.

HVAC

Our team offers drawing and designing of HVAC systems which help in configuring customized pathways of the ducts and other ventilation systems in the premises, heat load calculations which can determine the required heating and cooling and provide competent suitable solutions. Our Skilled technicians with years of experience and sound knowledge about the systems carry out supply, installation and also maintenance and servicing of A/C to keep them functioning efficiently. We guarantee international grade workmanship and adhere to professional working practices to satisfy the requirement of our clients.

"Security for the insecure world"

SECURITY SURVEILLANCE SYSTEMS

CCTV technology has evolved exponentially—from simple video footage monitoring, to today's intelligent systems that are capable of identifying abnormal events or behavior. We execute connections for access control, video surveillance, integrated physical/logical security.

We take the time to listen to your concerns around security threats, provide options based on proven implementations and help your team incorporate the right security measures.

RETAIL STORE SOUND SYSTEM

We supply and fix retail store background music and paging sound systems that are pre-configured to make it easy to specify and is the perfect complete audio solution for your retail store. Our business hospitality solutions deliver consistent high-performance background music while adding to your customers' shopping experience. Enjoy exceptional audio quality from simple background music systems to more sophisticated multi zone distributed speaker systems with zone control for different music formats that are tailored for entrance areas, retail stores, shops, boutiques, and multi-room music coverage and paging capabilities.

Projects

Throughout the years, our labor of love has gifted us a bevy of partners from whom we have nurtured sincere gratitude and appreciation for our work. Our lavish projects in Interior Decoration and Fit Out Works for several branded showrooms reflects our timeless reliability and competency justifying the patronage we enjoy from our repeat customers. Currently, we are vigorously creating multiple residential designs and commercial spaces as a turnkey provider. Some of the most challenging and prestigious projects we have undertaken include the Interior Works for Ministry of Industry and Electricity, Ministry of Municipal & Rural Affairs, Royal Commission for Jubail, Baskin Robbins, Hugo Boss, Al Salam Bank and many more.

Abacus Lumiere

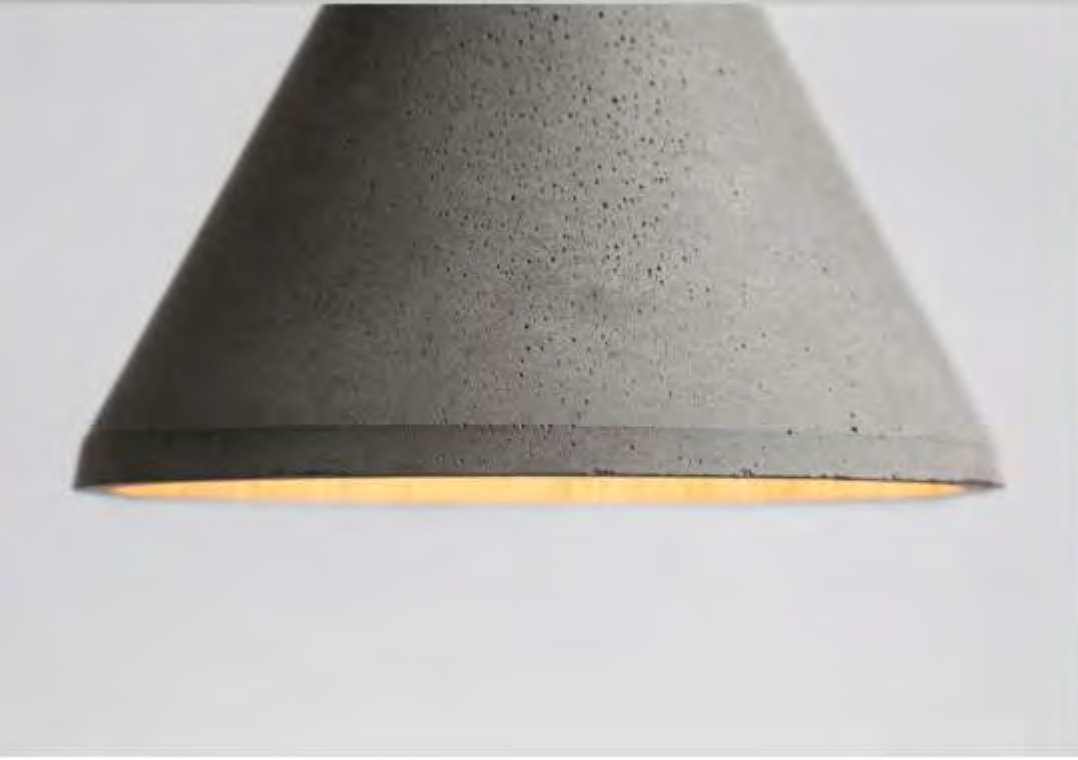

A sweet harmony of authenticity in architectural lighting design utmost quality

and technical detailing tied with service oriented efficiency is our gift to you

Abacus Luminarie

We believe in birthing an emotion within the space through effective lighting designs. As Lighting holds the ability to animate and transform any space, it's our primary goal to achieve it through this new Lights manufacturing Division.

"Design is a subtle alchemy & Lighting
is its key."

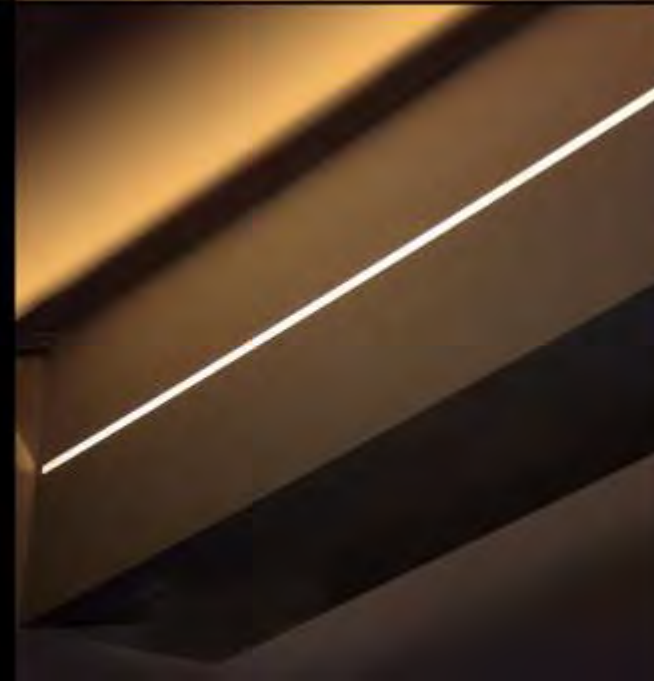

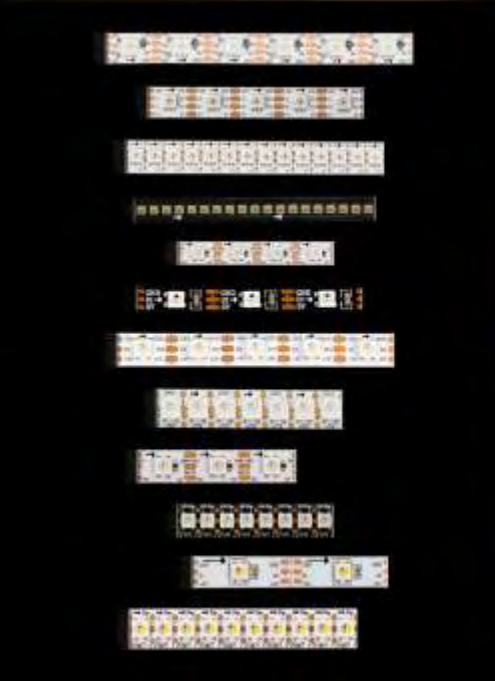

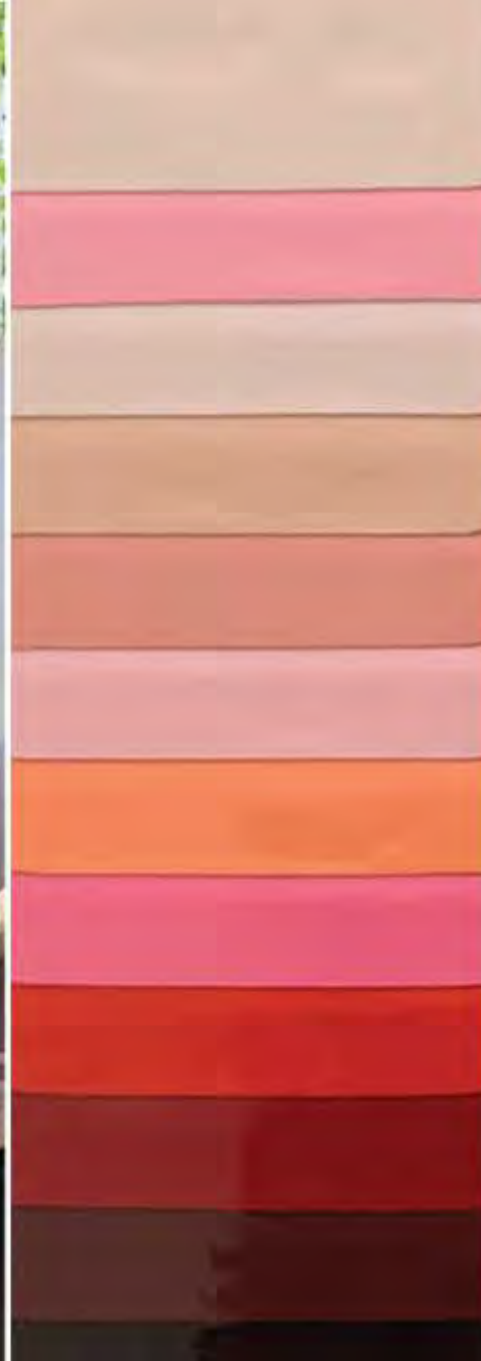

LED STRIP LIGHTS

LED Strip Light (also known as an LED tape or ribbon light) is a flexible circuit board populated by surface mounted light-emitting diodes (SMD LEDs) that usually comes with an adhesive backing.

Traditionally, strip lights have been used solely in accent lighting, backlighting, task lighting, and decorative lighting applications. Present day developments in the increased luminous efficacy and longer lifespans have allowed LED strip lights to be used in applications such as high brightness task lighting, fluorescent and halogen lighting fixture replacements, indirect lighting applications.

Stretch Ceiling

A Stretch Ceiling is a suspended ceiling system consisting of two basic components – a perimeter track and lightweight fabric membrane which stretches and clips into the track. In addition to ceilings the system can be used for wall coverings, light diffusers, floating panels, exhibitions and creative shapes

ARCHISTONE

Architecture Embellishment

Stones have been used for decorative purposes in construction and monumental sculptures since the medieval period. Classical design still influences architecture in the modern day. Simple beauty seen in classical styles is never out of style especially those who find the modernists styles are too plain or dull, classical designs offers more than just a visual treat.

Abacus manufacture, supply and install decorative columns, arches, keystones, Colonnades, Domes, brackets etc. in artificial stone. The major composition of artificial stone are mineral powders of real stone combined with silica and fine dust of glass with chemical for fire and temperature resistance and polymer base binding agents.

The elegance of this product is highly adaptable for various use in interior and can be used in assorted architecture projects in innumerable forms. The products are standard as well as customized design and sizes, with flexibility to create any design you feel suits your requirement. Our in-house design center is well equipped to produce any design required as per site

ATM SURROUNDS

ATM Kiosks have a distinctive design pattern that leaves no room for deviation. This is to ensure there is absolutely no dilution to the design elements that drive the brand. Keeping such requirements in mind, we have successfully replicated these design elements as well as expanded upon it faithfully when the situation warrants a creative input. A disciplined approach tempered by creativity allows us to showcase our talents in even small spaces.
