CODING ABSENCES

We understand the need to take care of yourself and sometimes that requires an absence. Please input all absences in Frontline as soon as possible to help ensure the likelihood of being able to get a substitute and if you need assistance, please let me know so I can help!

When inputting an absence, we want to ensure you use the correct coding so we have clarified the codings so that you know how they will impact your leave balance and what may be required for each leave type, please click here.

If there is a time where you need to input your absence after your contractual day has begun, you will no longer be able to enter it yourself so you will need the front office staff, your supervisor, or myself to do so.

VACATION REMINDERS

For all classified employees, please remember that vacation requests must be submitted to the employee's supervisor not less than five working days in advance of the first date of the requested vacation. The supervisor will then provide a decision within 5 business days of the request; if no response if given within 5 days, the vacation will be considered approved. If the vacation request is not submitted to the suprvisor or with the required advanced notice, the vacation code will not be eligible.

For all 10 or 11 month employees, vacation days are not to be taken during the two (2) weeks during the opening or closing of the school.
