INSTALLATIONS

SPLASH POOL INSTALLATIONS

Fibreglass Pool Installation.

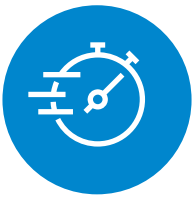

At Splash Pool Installations, we are passionate about turning your backyard dreams into a reality. We specialise in the installation aspect of fibreglass swimming pools - which is the most critical part of any swimming pool project.

With years of expertise in the industry, we have built a reputation for excellence, professionalism, and unparalleled customer service.

Why Fibreglass Pools ?

Installing a swimming pool in your backyard is a huge investment for any family. At Splash Pool Installations we have chosen to offer our entire range of designer swimming pools in a high-grade fibreglass finish, bringing our customers the best pools in the market.

BUILD SPEED & QUALITY

Our team tightly controls our installation process, delivering you a more reliable, consistent product that can be installed in your backyard in a matter of weeks with little disruption to your every day life.

DURABILITY & LONGEVITY

With a 30 year warranty, your pool will be built to stand the test of time and highly unlikely to encounter issues such as leaks and degradation that can be prevalent with other types of materials and styles of pools.

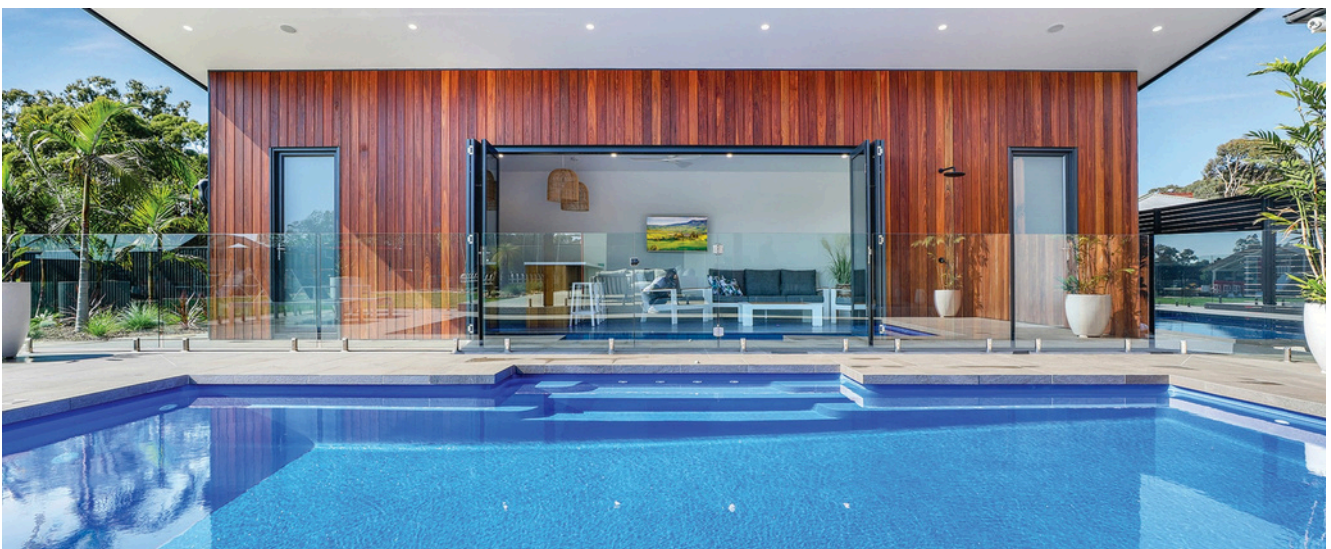

AESTHETICS & PERFORMANCE

As the centrepiece of your backyard, fibreglass gives you the ability to style the design of your pool with a plethora of colour finishes. Fibreglass pools also heat quicker than concrete pools, saving energy and costs over time.

LOW MAINTENANCE

Fibreglass pools are easy to clean and simple to maintain, leaving you with more time to simply enjoy the lifestyle you have created.

Making the process simple.

Our highly trained and friendly team are here to support you through the pool buying process, managing the entire process through to completion.

DESIGNING YOUR IDEAL POOL

Purchasing a pool can be an overwhelming experience. Our team of highly trained experts are here to help you design the ideal pool to suit your backyard, your needs and your style.

This includes:

- On-Site Consultation
- Access Assessment
- Size & Colour Selection
- Timeframe Planning

HIGHEST QUALITY MATERIALS & PROCESSES

At Splash Pool Installations we provide best tested materials.

This allows us to control the entire project from start to finish, process and essential material used, ensuring the highest quality standards.

This includes:

- Made-To-Order Pools
- Protective Coating Application
- Delivery Management
- Local Pool Manufacturing
- Quality Control & Testing

TAKING CARE OF THE FINISHING TOUCHES

Installation day can be a very exciting experience for a new poolowner (and everyone in their street). However, this is a vital step in the process to ensure your pool operates effectively providing years of enjoyment.

This includes:

- Excavation & Site Preparation
- Lift In, Back Fill & Bond Beam
- Equipment Installation
- Plumbing Pool Shell
- Water Fill & Balancing

ENSURING YOU GET THE MOST OUT OF YOUR POOL

Understanding how your pool works and how to operate it efficiently is the key to ensuring you get maximum enjoyment out of your pool, immediately and years into the future.

Our handover process includes:

- On-Site Handover
- Water Testing & Balance
- Ongoing Phone Support
- Thorough Vacuum & Clean
- Control System Set Up

Splash Pool Range.

Choose a style for your inground backyard fibreglass swimming pool that ensures it is dressed for the occasion and explore our portfolio of exciting features. No matter how you wish to accessorise your pool – with a spa, splash deck, swim out ledge or more – we have something for everyone’s preference.

Our Services

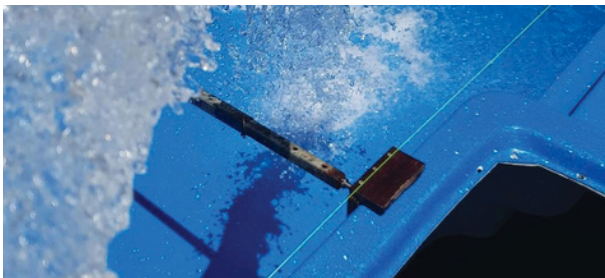

DESIGN & POOL INSTALLATION

At Splash Pool installations we work closely with you to understand your vision, lifestyle, and preferences for your backyard. We meticulously plan the layout, considering every aspect of your space to ensure the pool's placement, size, and shape suit your backyard perfectly.

FENCING

Pool safety is paramount, and our design and fencing install solutions not only comply with regulations but also enhance the overall beauty of your pool area. There is such a diverse range of materials to use, from elegant wrought iron to modern glass panels, offering both transparency and durability while maintaining the integrity of your pool's surroundings. With a keen eye for detail, we ensure that our fencing seamlessly integrates with your landscape, providing an unobtrusive yet effective barrier that keeps your loved ones safe and secure.

POOL FILL

As part of our services, we also cover the filling of your pool. With fiberglass pools, there is a correct method that needs to be followed in order to support the pool and the large amount of water it will hold and you can trust us that everything will be taken care of efficiently and professionally.

EXCAVATION

As part of quotes, we also take care of excavation. This involves carefully removing soil and creating a hole according to the pool's design specifications. This process requires heavy machinery to dig out the pool's shape and depth, ensuring proper drainage and stability. After excavation, the area is graded, compacted, and prepared for the pool's installation. The excavation phase sets the groundwork for a successful pool construction, and it's essential for ensuring a solid foundation and long-lasting pool structure.

PAVING

We recognise the pivotal role that the pool area plays in enhancing your outdoor space. Our team of experts specialises in seamlessly integrating the pool and its surroundings. We cover materials, functionality, safety, and aesthetics so you can make an informed decision on your pool area. Elevate your outdoor space and transform it into the backyard oasis you'll never want to leave.

LANDSCAPING

Your pool landscaping is an essential canvas for creating a serene and picturesque escape. We have worked closely with landscaping experts and the skills they have to transform ordinary spaces into extraordinary sanctuaries. Whether you envision a lush tropical paradise or a minimalist haven, we curate every element - from plant selections to retaining walls, stone work and thoughtfully designed pathways. With an eye for detail, we ensure that your pool landscaping not only enhances visual appeal but also contributes to a sense of tranquility and balance.

SOIL DISPOSAL

Managing soil disposal is a critical aspect of any construction or landscaping project, and at Splash Pool installations, we are completely transparent with the process and requirements when installing a new pool. When excavating for a new pool and reshaping your landscape, our experienced team ensures the proper removal and disposal of excess soil. We adhere to environmental regulations, offering you a hassle-free solution for soil removal.

CRANE SERVICES

We can also arrange crane services for the install of your fiberglass pool. Each project requirement is different, careful maneuvering in tight spaces or requires lifting over obstacles, our experienced crane operators ensure a seamless installation.
