

EQUIPPING WARRIORS IN HARM'S WAY

Inert Training Dynamite

The **EOD Gear Inert Training Dynamite** is a realistic, non-energetic training aid designed to replicate the appearance of commercial dynamite sticks encountered during explosive hazard response operations. It supports explosive recognition training for **EOD units, bomb squads, military personnel, and law enforcement agencies.**

The device contains **no explosive material** and is intended solely for safe classroom and field training use. Durable construction allows repeated use during operational training scenarios. The training dynamite is available with **U.S., Russian, or Arabic markings** to support foreign explosive recognition training.

Materials & Construction

Material: Durable inert training composite
Exterior: Printed wrapper replicating dynamite packaging
Explosive Material: None
Made in the USA
Quality System: ISO 9001–certified manufacturing

Functional Features

Realistic dynamite stick appearance
Reusable inert training aid
Supports explosive recognition training
Safe for classroom and field exercises
Contains no energetic materials

Available Variants

U.S. Dynamite Markings
Russian Dynamite Markings
Arabic Dynamite Markings
All variants are dimensionally identical and differ only in **color and printed language.**
