

A US Manufacturer - Overview

Founded and led by a U.S. Navy EOD veteran and the 2026 U.S. SBA Small Business Person of the Year for Tennessee, **EOD Gear** brings firsthand operational expertise to every product we design, manufacture, and deliver. We unite academia, research, and industry to bridge the gap between brilliant prototypes and the warfighter's reality. Through our proprietary **Custom Off The Shelf™ (COTS)** framework, we combine the speed of commercial production with the precision of bespoke design, delivering mission-ready tools directly to the hands of end users worldwide.

Core Competencies

EOD Gear specializes in rapid, high-precision manufacturing and kitting for Defense, Law Enforcement, and Intelligence communities.

- **CNC Precision Machining**: In-house Mill and Lathe fabrication of custom tools and equipment.
- **Additive Manufacturing**: Rapid prototyping and production of specialized components.
- **Training Aids**: Design and machining of replica inert ordnance for explosive training centers.
- **Custom Kitting**: Assembly and delivery of mission-ready tool kits tailored to specific operational requirements.

Differentiators

Our capabilities are backed by stringent quality controls, robust licensing, and a proven track record of delivering without middleman markup.

- **U.S. In-House Manufacturing**: We are a direct manufacturer, not a reseller, ensuring quality control and rapid turnaround.
- **Veteran-Led Expertise**: Direct operational knowledge of end-user requirements from a U.S. Navy EOD veteran founder.
- **Berry Compliant Materials**: Utilizing MIL-Grade stainless steel and aluminum.
- **Comprehensive Licensing**: ITAR Registered, ATF FFL Type 10, and ATF FEL Type 20 Manufacturer.
- **DoD Supply Chain Integration**: EOD Gear holds assigned National Stock Numbers (**NSNs**) within the DoD supply system for select manufactured products.

Past Performance

EOD Gear has a proven history of executing complex manufacturing and kitting contracts across multiple federal agencies, including over 14,000 clients and 18,000+ transactions.

Agency / Client	Scope of Work	Contracting Vehicle
Department of Energy (NNSA)	Manufactured and delivered Explosive Breaching Equipment	Blanket Purchase Agreement (BPA)
Department of Justice (ATF NCETR)	Machined replica inert ordnance as training aids for the National Center for Explosives Training and Research	Multiple Purchase Orders & Delivery Orders
