RE: Gail Korpan

To Whom it may concern,

I am writing to highly recommend Gail Korpan; Registered Massage Therapist, and Certified Office Ergonomic Evaluator from Preferred Massage Therapy. Gail has provided invaluable services to St. Isidore Learning Centre by providing ergonomic assessment for each of our staff members workstations.

Gail's expertise in ergonomic assessments and her dedication to ensuring the well-being and comfort of our staff were evident throughout her interactions with us. She meticulously assessed each workstation, taking into consideration the specific needs and requirements of individual staff members. Her recommendations for workstation adjustments were thoughtful and tailored to address any ergonomic issues identified.

What truly sets Gail apart is her commitment to following up with each staff member after the adjustments were made. She ensured that the changes implemented were effective in improving the ergonomic conditions of their workstations. Her ability to build rapport with our staff members enabled her to understand their needs and preferences, resulting in solutions that were not only effective but also well-received by our team.

Gail's professionalism, expertise, and genuine care for the well-being of our staff have made an impact on our organization. We have seen noticeable improvement in the comfort and productivity of our staff since implementing Gail's recommendations.

In conclusion, I highly recommend Gail Korpan to any organization seeking expert guidance in ergonomic assessments and workplace wellness initiatives. Her dedication, attention to detail, and ability to build meaningful relationships make her an invaluable asset to any team.

Please feel free to contact me if you require any further information.

Sincerely,

*Karen Antoniuk*
