## SPEAKER BIO

Jen Conkey is the person CEOs come to when they are done playing small. She built three multi-million dollar businesses and replaced herself as CEO in each one, then turned the profit into Capital Titans, a nine-figure capital allocation platform managing over $100 million across multifamily, storage, hospitality, and oil and gas. Her keynotes pair the Four Quadrants of Wealth framework with real-world experience and live demonstrations that move audiences from insight to action. Jen Conkey is where serious CEOs go to build their legacy.

## KEYNOTE TOPICS

### GO PRO: DON'T SWING. PULL.
The difference between running a business like an amateur and running it like a pro, and what it takes to make the change hold.

### THE FOUR QUADRANTS OF WEALTH
A clear way to see which of the four earning quadrants you are in right now, and the bridge from there to the highest one.

### BREAKING THE LIMIT
A powerful talk on the beliefs people carry without noticing, closing with a live arrow-break where audience members put a physical limit behind them.

## AV & ROOM NEEDS

- Wireless lavalier or headset mic (hands-free — required for the live demonstration)
- Confidence monitor or clear sightline to the room for slide cues
- HDMI or wireless screen-share capability (Mac laptop)
- Stage or floor space clear of furniture for movement during Breaking the Limit
- House sound patched to lav mic; no handheld required
- Confirm: projector/screen resolution, podium preference, green room availability
