Training, Discipline & Control

Brazilian Jiu-Jitsu Black Belt & Instructor

Jiu-Jitsu is more than a credential. It reinforces control, patience, composure, teaching, and the discipline to solve problems under pressure.

Technique over ego. Control over chaos.

Leadership & Resilience

Surviving the widow maker heart attack was not a brand story. It was a life story.

It deepened Joe's commitment to health, leadership, family, public service, and teaching others before the next critical moment arrives. That perspective now informs Cop Town Podcast, consulting, training, and every conversation about preparedness and resilience.

Preparedness is not fear. It is responsibility.
