Scan to Book Appointment

Cost of prescription separate from assessments and testing.
The above are cash prices. Ask the pharmacy about insurance eligibility.

Your Pharmacy Can Now Treat & Prescribe for Common Conditions

We now offer **convenient same-day care** for your everyday health needs.

How It Works

Start online or in the pharmacy – walk-ins welcome.
Complete a quick self-assessment (no cost to reserve).

Check-in for your appointment, meet your pharmacist
for a short consultation to confirm what's needed.

If eligible, your pharmacist can prescribe right away.
Medication may be covered by insurance.

Affordable and convenient. Pay for your visit directly or
use insurance if your plan is in-network.

Testing & Treatment for Strep, Flu, and COVID-19

Our pharmacy offers testing and treatment for upper-respiratory infections.

- **Test first:** Your pharmacist performs a rapid test on-site. Test prices vary.
- **Decide on treatment:** If your test is positive, your pharmacist can continue the consultation to provide same-day treatment.
