

SPEECH AND LANGUAGE THERAPY

# Education & School Coaching Packages

Supporting whole schools to communicate differently.

At Serennu Therapies, we believe that lasting change in schools happens when the people around children feel genuinely equipped — not just after a training day, but in every classroom moment that matters. Our education packages are built as a continuous coaching cycle, where training, classroom implementation, and reflective follow-up build on one another to create meaningful, embedded progress.

# Our Approach

We know that a single training day rarely changes how a school feels for its pupils. That's why everything we offer is designed as a **continuous coaching cycle** — where each layer of support builds on the last, and where real change happens in the everyday moments of classroom life, not just in a training room.

Our packages are delivered by specialist speech and language therapists with expertise in complex communication needs, neurodiversity-affirming practice, AAC, and communication partner training. We work alongside your team — not above them — and we tailor everything to the context, culture, and community of your setting.

Package	Focus	Best for
■ Foundations	Whole-team communication training	Settings building a shared understanding for the first time
■ Coaching	Training + classroom implementation	Settings ready to embed strategies into everyday practice
■ Partnership	Whole-school development	Settings committed to long-term, systemic change

These programmes are designed as a continuous coaching cycle, where training, classroom implementation, and follow-up support build on one another to ensure meaningful change — not just a tick-box training day.

## Available in person or online.

All packages are tailored to your setting's context, priorities, and pupil population. We work with special schools, mainstream primaries, nurseries, PRUs, and multi-academy trusts.

# ■ Foundations Package

---

## Foundation Communication Training

Designed for schools wishing to build a shared understanding of communication needs and inclusive, communication-supportive approaches across the setting.

### What's included:

- Full-day training or two half-day sessions, delivered on-site by two specialist therapists
- Training for up to 30 staff members
- Evidence-informed content tailored to your school context and pupil population
- Focus on practical communication strategies, participation, and embedding approaches within daily classroom routines
- Communication partner training, including low- and high-tech AAC
- Q&A and reflective discussion time around real classroom situations
- Training resources and handouts for all attendees
- Digital copy of slides and supporting materials
- Signposting to recommended tools and evidence-informed resources
- Leadership summary of key recommendations to support whole-school implementation

### Topics include:

- Supporting pupils with complex communication needs
- Neuro-affirming communication approaches
- Communication partner strategies that increase access and participation
- Embedding AAC and multimodal communication in everyday school routines

**Outcome:** A shared understanding across the staff team of how to support communication, alongside increased confidence using inclusive communication strategies throughout the school day.

## Communication Training & Classroom Implementation

Includes everything in the Foundations Package, plus hands-on in-class coaching to support the embedding of communication strategies into everyday classroom practice.

### What's included — in addition to Foundations:

- Whole-staff training, grouped according to class differences and pupil needs
- Classroom observation and communication audit across 3–5 classrooms

### Review of communication environments, including:

- Visual supports
- AAC access
- Staff communication strategies
- Opportunities for pupil participation

### Coaching and feedback:

- Small group coaching session with teaching staff
- Practical discussion of strategies observed in classrooms
- Opportunity for staff to reflect and problem-solve

### Outcome measures:

- Pre and post staff confidence questionnaire
- Simple communication environment checklist

**Outcome:** Staff feel more confident applying communication strategies in the classroom, with clear evidence of change in the environment and interaction patterns.

---

## Whole-School Development

Our most comprehensive offer — includes everything in Foundations and Coaching, plus extended mentoring, environment review, and ongoing outcome tracking. For settings committed to deep, long-term, systemic change.

### What's included — in addition to Foundations and Coaching:

- Whole-staff training across multiple sessions
- Targeted classroom coaching visits
- LSA/TA/SALTA mentoring sessions
- Comprehensive review of communication environments and communication partner skills
- Ongoing outcome measurements to track progress and inform next steps

### Who this is for:

Settings who understand that the most meaningful change happens over time, with the right people alongside them. This programme is for school leaders and teams who are ready to shift their culture — not just their practice.

**Outcome:** Sustainable, whole-school change in how communication is understood, supported, and celebrated — with evidence of impact across the setting.

## ■ Bespoke Add-ons & Additional Support

Any of the following can be added to an existing package, or commissioned as a standalone piece of work. We'll always start with a conversation to make sure what we offer is the right fit for your setting.

- Parent communication workshops
- Advanced AAC training
- Support developing school communication policies
- Staff supervision and reflective practice sessions
- Ongoing coaching packages
- 6- or 12-month review audits

### Get in touch

Every setting is different. If you'd like to talk through which package is right for you — or explore something bespoke — we'd love to hear from you.
