

Pediatric CPAP Parts List

Parts needed from Bound Tree or your Intersurgical Provider.

Item Numbers may differ; these are Bound Tree Item Numbers.

You can use your existing CPAP generators. GoPap, O2Max, Vent tubing connection in CPAP/BiPap mode, or even the OG yellow box PortoVent from Emergent. Mercury Flow Safe II (If Nebulizing Meds, must be in CPAP mode only). Some of the listed parts may not be required, depending on your CPAP delivery device. The Bitrack Adult Small with Standard Blue Elbow, paired with the Blue adapter, is compatible with all CPAP generators. Blue Elbow ID fits vents, and FlowSafe-II, with Blue Adapter OD allows for fitting GoPap and O2 Max

For use with GoPap or O2 Max, the Blue adapter on page 2 is required.
