Why This Masterclass Matters Now

Strategic Transformation Leadership

Develop the capability to lead organisational transformation and strategic change.

AI & Digital Capability

Understand how emerging technologies reshape business models, workflows and leadership decisions.

Change Leadership & Workforce Readiness

Build the ability to guide people through uncertainty, change and new ways of working.

Business Performance Improvement

Identify opportunities to improve productivity, efficiency and organisational outcomes.

Strategic Decision Making

Strengthen the ability to analyse challenges and make informed leadership decisions.

Future-Focused Leadership Capability

Develop adaptable leadership skills to support organisational growth and competitiveness.

Designed For

Professionals seeking to strengthen their leadership capability, including managers, supervisors, team leaders, business owners, emerging leaders and professionals responsible for driving strategic change, performance improvement and workforce development within their organisation.

Start your Australian postgraduate credential with one unit.

This Masterclass represents one unit within the BSB80320 Graduate Diploma of Strategic Leadership pathway. Learners may select individual Masterclasses based on their professional development needs. Successfully completed units can contribute toward completion of the full qualification, subject to ICQA (RTO 46584) enrolment, assessment and qualification requirements.

CORE

BSBLDR811

Lead strategic transformation

Lead organisation-wide change and transformation initiatives with measurable outcomes and stakeholder alignment.

CORE

BSBSTR802

Lead strategic planning processes for an organisation

Design and lead strategic planning processes aligned with long-term organisational goals.

ELECTIVE

Establish and embed ethical frameworks and practices across the organisation.

ELECTIVE

BSBFIN801

Lead financial strategy development

Develop and lead financial strategies aligned with organisational goals and sustainability.

ELECTIVE

BSBCRT611

Apply critical thinking for complex problem solving

Apply advanced critical thinking methodologies to analyse and resolve complex challenges.

Stackable Leadership Masterclasses

RTO 46584 | AQF LEVEL 8 PATHWAY

Your Masterclass Learning Pathway

- **AQF Level 8 unit** — set to the same postgraduate benchmark as a Graduate Diploma awarded by an Australian university.
- Delivered by **ICQA (RTO 46584)**, a Nationally Recognised Training provider.
- **Fully online**, with learning applied directly to your current role.
- **Stacks toward the full BSB80320 Graduate Diploma of Strategic Leadership** — nothing you complete now goes to waste if you continue the pathway later.
- **One flat price per unit, no hidden fees** — tuition plus a single enrolment fee covers all Learner Materials and technology access.

The Two-Day Experience

Interactive and workplace-applied, not lecture-led. You work with a realistic transformation scenario — from your own organisation or a suitable simulated context — and progressively build a change strategy, stakeholder map, risk view and communication plan.

Assessment

Assessment is included in the fee: a written assignment applying strategic transformation principles to your workplace, an approved organisational context, or a suitable simulated environment. Assessment is competency-based.

Transform Capability Into Workplace Impact

Through practical Masterclass learning, participants develop the ability to:

- ✓ Lead teams through change and transformation.
- ✓ Improve decision-making and organisational performance.
- ✓ Apply strategic thinking to workplace challenges.
- ✓ Strengthen workforce capability and engagement.

Capability is built in four stages, not one workshop

Knowledge

Structured frameworks for strategic and people leadership

Behaviour

Applied practice through real workplace scenarios

Application

Direct use in the learner's own role and team

Business Impact

Measured change in performance and capability indicators

A continuous cycle: each Masterclass cohort's business impact data informs the next intake's design.

Australian Statement of Attainment

Following formal enrolment and successful completion of the required competency assessment, eligible participants will receive an Australian Statement of Attainment issued by ICQA (RTO 46584).

Attendance at the Masterclass alone does not result in a Statement of Attainment.

The successfully completed unit may contribute toward the BSB80320 Graduate Diploma of Strategic Leadership (AQF Level 8), subject to satisfying ICQA's enrolment, assessment and qualification requirements.

This Masterclass provides a unit-level learning pathway and does not itself constitute the Graduate Diploma qualification.

RP

Hon. Professor Dr Roy Prasad, AIPA

DBA(CH), MHRM(MY), Grad Mgt (AU), DipBus (AU), DipRE (AU), CERT IV TAE 4012, DipAcc (NZ), DipNurse (NZ), TESOL (NZ).

FACILITATOR

A strategic leadership educator and executive facilitator specialising in organisational transformation, business leadership and executive development. He leads facilitation at the EDUK8U Executive Development Centre in Kuala Lumpur, working with managers, senior leaders and business owners across Malaysia and Southeast Asia — translating advanced strategic-leadership frameworks into practical, workplace-applied capability.
