Bringing Your Unique Signature Frequency Back Into Wholeness

Everything is Source Energy. Everything! We are simply waking up and remembering the truth of who we are as Divine Beings of Organic Light.

This universe was chosen as the 'space' to experience duality and separation.

We ALL agreed to 'play the game,' to have the experience. We agreed to be 'cut off from our true nature as Organic Beings of Light and "fall in consciousness."

We created a plethora of characters (races) and countless bodysuits or avatars, to explore and experience what it would be like if we "forgot" our true nature and had limited life-force energy within the 'game.'

Our consciousness, lifeforce (our unique frequency signatures), was used to 'animate' the characters within the game. Countless fractals of our consciousness, playing "equally" on both sides. This was key.

We also KNEW, in the end, when the 'time allotted for the game' was complete, we would have to wake up, call back ALL of our creations, fractals of our consciousness, and come back into our truth WITHIN the game itself.

WAKING UP INSIDE THE GAME

This is what the “shift in consciousness,” or “ascension,” is all about. It’s not simply meditating your way into a peaceful state, or living a good life. It’s about unlocking the game, the conditioning, the programs that keep us in the illusion.

To remember this reality is a fabrication and to expand beyond it, back into our true state of Being. Waking up to the truth that we are limitless creators.

This experience was always intended to come to a conclusion, to be played for a certain amount of “time” and then wrapped up, or unraveled.

But how do you wake up when you are unaware or unconscious of the other roles and parts you are playing beyond this human experience?

Your experiences and your body provide clues to help you.

It’s time to recognize the clues and use this information to unlock or awaken beyond this limited level of reality and expand your consciousness. It’s time to level up!

Why is this important? What does this have to do with the shift in consciousness happening on the planet, or me, for that matter?

Because you helped CREATE the game, and you are here to take it down, not only for you, but for all life.

Breathe!

Yes, if you are reading this and drawn to this work, it’s because your soul, your essence, knows this truth on some level.

And you are not alone.

YOU AWAKENING AFFECTS THE WHOLE

From every perceivable dimension- planetary system, galaxy, and beyond, advanced Beings of Light are embodied and are waking up. Yes, that is you!

A massive team is working together to evolve out of the old programs (codes) that kept the game of separation, duality, fear, scarcity, lack, good and evil, and more in place.

It's a holographic simulation, albeit a very convincing one, but a virtual reality nonetheless.

Although it is a game that EVERYONE is entrenched in, not everyone is ready to start waking up. But those numbers are growing!

And as more people wake up, expand their perceptions, understand how the game was created, realize that it is still going on, and the roles they play... the faster it gets taken apart.

Not overnight, but it's already happening. The program is powering down, and by using this technique, by following the clues and calling back your energy, you assist both yourself and all of humanity.

You helped set it in motion; played the parts; experienced what it is like to forget that you are, and have always been, a powerful Being of divine Light; and now you are here to remember and evolve.

This technique helps you to recognize the clues and reclaim your energy.

UNDERSTANDING THERE IS A GAME AFOOT

Simply understanding that there is a massive universal 'game' in process and realizing how absolutely convinced we (humankind) all are/were that it is real already gives you an edge.

Very few people have this level of awareness. Even if they believe or know that there are many different races, bodysuits, groups, legions, etc. across the universe (knowing we are not alone), I would venture to say most do not even consider that THEY (their consciousness) are playing so many of the roles (especially if they are what we would call dark).

This awareness is essential to truly awaken from the illusion.

Movies, media, and stories have placed these concepts into the mass consciousness. The Marvel Universe, Star Wars, Loki, and The Matrix, to name a few, all share the premise that we are not alone in the universe.

However, realizing you have countless expressions (lives) playing out across the spectrum of good and evil may be a revelation and is key to shifting your consciousness.

This technique provides a framework, a process to utilize the clues in your life to call back your unique energy from those "character roles."

This is a key for your remembering, your awakening back into your organic states of Being.

WHEN TO USE IT...

Remember, when it is time to reclaim energy from roles you are unaware of, your consciousness will provide a variety of clues. It's your job to recognize the clues.

This technique is designed to work throughout all levels of reality, all dimensions, universes, bodysuits, and more, to assist you with retrieving your energy and unraveling you from that experience.

Your consciousness is constantly providing you with clues. Your body is a map once you learn to decipher its clues.

When things show up for 'no known reason,' they're often a clue or bleed-through that provides information. For example:

- Unexplained aches or pains in the physical body
- Unexplained emotions - no obvious trigger
- Unusual falls or injuries
- Disturbing dreams or visions
- People from your past (this lifetime) resurfacing
- Relationships exploding for no reason
- Intuitive knowing that something is ready to be cleared

When this happens, it brings awareness that something "unknown at this level of consciousness" is ready to be called back.

It is key to clear your energy so the wisdom you gained and the knowledge gleaned can be known without needing to play that role in this lifetime (meaning, you don't have to become violent, dark, or fight for life force to learn from what was experienced).

Use this technique to work from the quantum levels.

Approach this like a detective, thinking outside the box, and recognize that you may have NO recollection or understanding. Yet if you allow your intuition to guide you, things can shift very quickly.

A SPACE OF NEUTRALITY

To begin, it is essential to move into a space of neutrality.

Think of this as a big cosmic movie, and each incarnation as a role that you "temporarily" take on.

Many of the characters you agreed to play, once 'in the role', you actually thought were real.

This helps the ego/mind move beyond judgment, fear, or grandiose emotions, allowing you to do this work more effectively.

WORKING FROM A HIGHER PERSPECTIVE

Your conscious intention to work from a quantum state of Being AND from a place of loving neutrality will greatly enhance the effectiveness of this work.

As in movie roles and real life, those holding the most power never want to relinquish it. Those wielding power never go down without a good fight.

Being aware you have played equally on both the dark and Light sides can really shake you to the core. Remember that you ARE a Divine Being of Light, and you/we all agreed to experience separation and duality. We all agreed to play the game.

When it is time to call back your energy from aspects that played perceived "dark roles", you may experience bleed-throughs at this level of consciousness. This may show up as things going awry, emotions flaring, or getting physically sick... these are all clues that aspects aren't giving up easily!

That is why neutrality is so key. Loving yourself, those parts of your consciousness, is essential. It's not the truth of who you are; it's just roles you've played inside this experience.

HOW TO USE THIS TECHNIQUE

This technique works at both the frequency and quantum levels. In the quantum realm, everything is happening in the Now Moment. Time (past, present, and future) does not exist as we perceive it.

Every word has its own frequency, even if the meaning is similar. Therefore, sometimes you may have the right idea or meaning but not the correct word to unlock your energy, etc.

This is when using a thesaurus is helpful for pinpointing other words until you find a match for the frequency you are trying to clear. For example, you may be thinking of anger, but the correct frequency is a better match to fury or rage.

Trust yourself and your knowing. Follow your intuition. And if you still feel you haven't found the right wording, keep looking for other words until you feel the shift (or the outer reality changes, i.e., the clue that prompted you has resolved).

Clear each frequency or word independently. The technique doesn't work if you clump things together. Speak the technique out loud, as each word/frequency holds specific energy and is most potent when spoken.

It simply doesn't work to string or bundle a bunch of words together, because each word has a unique frequency combination. Think of a keyboard; if you play all the keys at once, you can't hear the individual notes. I've learned this through years of using this technique. There are no short-cuts.

To begin, focus your attention in your High Heart and set a pure intention to clear and reclaim your energy.

Although this is a game, this work, this desire to neutralize your energy and call it home, is VERY real. It is one of the most powerful things you can do to awaken from inside the experience.

Then, with pure intention, say the words aloud to activate the clearing.

QUANTUM CLEARING

"In the name of Divine Source and the Light that I AM, I call back my energy, my Unique Signature Frequency, all of my particles of creation connected to:

(fill in the blank, for example, "the pain in my left shoulder")

As a sovereign Being of Light, I command my energy to be cleared of any and all distortion programs, codes, and instruction sets, and returned to an organic state of Light.

I lovingly call home any and all aspects of me in resistance, hiding, lost, or deep in the illusion.

I do this in this incarnation and
all incarnations throughout space and time,

All parallel realities and parallel universes,

All alternate realities and alternate universes,

All planetary systems, all source systems, and all
dimensions.

I embody my Pure Organic
Energy in this NOW moment,
Remembering I am & have always been a
Divine Being of Light.

Repeat this technique as often as you are guided.
