

THE TEMPLE

This mural will tell the story of transformation, healing, movement, and connection.

Artist/Collaborative Artists will have an opportunity to be selected and commissioned to bring this vision to life on the side of The Temple.

Woven into the design for visitors to discover for years to come will be the names, prayers, blessings, intentions, and words of the people who help bring it to life.

Through community contributions, these meaningful pieces will be thoughtfully incorporated into the artwork, creating a living reflection of the people who helped build it. Some will be easy to find. Others may remain hidden treasures waiting to be discovered.

While you are not restricted to our brand board we do ask that you consider our chosen colors when designing your palette.
