Mr Ahmed Ali Alnaimi

MBChB, MSc (Urology), FRCS (Urol)

Mr Ahmed Ali is a Consultant Urological Surgeon with over 8 years of consultant-level experience and extensive subspecialist expertise in endourology, stone disease, bladder cancer and minimally invasive urological surgery. He has been a Consultant at Frimley Health NHS Foundation Trust since 2017.

He leads specialist services in bladder cancer, including advanced laser techniques and hyperthermia treatment for high-risk non-muscle-invasive disease. He is recognised for pioneering minimally invasive and organ-preserving surgical approaches, including super thulium laser techniques for urothelial cancers.

Mr Ali has performed and supervised over 1,000 urological procedures and regularly manages complex upper tract and oncological cases. His clinical practice also includes prostate cancer diagnostics, focal therapy and benign prostate treatments such as Aquablation, Rezum and laser therapies.

He provides independent medico-legal opinion in urological cases, with expertise in surgical complications, cancer pathways, diagnostic delay and treatment outcomes.

My Profile & Key Experience
