Mr James Andrew Gilbert

BM BS, MA (Ed), FRCS (Gen Surg)

Mr James Gilbert is a highly experienced Consultant Surgeon with over 14 years' consultant-level practice in general surgery, kidney and pancreas transplantation, and complex vascular access surgery.

From 2010 to 2022 he was a substantive Consultant Transplant and Vascular Access Surgeon at Oxford University Hospitals NHS Foundation Trust, where he developed a specialist tertiary referral service for complex central venous pathology and advanced vascular access technologies.

His surgical practice includes over 500 transplant procedures and more than 3,000 dialysis access operations, with particular expertise in complex vascular access reconstruction, dialysis access complications, and central venous pathology.

Mr Gilbert has extensive experience in clinical governance, leadership and service redesign, and has worked closely with medical device manufacturers on the introduction and evaluation of novel vascular access technologies and registry development.

He has held several senior leadership roles including Chief Medical Officer and Practice Manager, overseeing hospital clinical services, outcomes, governance frameworks and professional standards.

Mr Gilbert provides clear, structured and evidence-based medico-legal opinions within the scope of his senior consultant surgical practice.

My Profile & Key Experience

Areas of Expertise

- General surgery
- Kidney and pancreas transplantation
- Vascular access surgery (including complex access and central venous pathology)
- Dialysis access complications
- Abdominal wall and hernia surgery
- Surgical governance and standards of care
- Medical device evaluation and innovation
- Consent, operative decision-making and post-operative complications

Reporting Profile

Average Turnaround: 2-4 weeks *subject to complexity of cases

Court Experience: Experience preparing expert clinical reports, governance reviews and professional advisory opinions in complex clinical matters

Compliance: Reports prepared in accordance with CPR Part 35, GMC guidance and relevant Royal College surgical standards.

Strengths:

Senior consultant surgical experience in complex tertiary services

High-volume transplant and dialysis access practice

Extensive governance, audit and guideline development experience

Clear, structured and evidence-based reporting

Qualifications

- **FRCS (General & Transplant Surgery)** – Royal College of Surgeons of Edinburgh (2009)
- **MA (Education)** – University of Winchester (2008)
- **MRCS** – Royal College of Surgeons of Edinburgh (2003)
- **BM BS** – University of Southampton (2000)

My Career History & Clinical Roles

Current Clinical Role

Practice Manager – **107 Harley Street Clinic** (Oct 2024 – Present)

Chief Medical Officer – **Royal Buckinghamshire Hospital** (from Sept 2025)

In addition to senior executive leadership roles, Mr Gilbert continues to contribute to clinical service development, surgical governance and hospital service improvement initiatives.

Previous Roles

Chief Medical Officer – New Foscote & Royal Buckinghamshire Hospitals (Jan 2023 – Aug 2024)

Consultant Transplant & Vascular Access Surgeon – Oxford University Hospitals NHS Foundation Trust (2010 – 2022)

At Oxford, Mr Gilbert led the development of complex vascular access services and contributed to national and international programmes in dialysis access surgery and transplant care.

Medico-Legal Training Highlights / CPD

Mr Gilbert undertakes regular CPD across surgery, transplantation, vascular access and clinical leadership.

His professional development includes:

- Extensive involvement in clinical governance, audit and guideline development
Leadership and professionalism training including professional boundaries, remediation and reflective practice
- Participation in national and international surgical consensus meetings
- Ongoing engagement in vascular access innovation and device development
