## Dr Hamoun Rozati

MBBS, PGCert (HE), MSc, MD(Res), MRCP (UK), FRCR (Clinical Oncology)

Dr Hamoun Rozati is a Consultant Clinical Oncologist specialising in radiotherapy, stereotactic radiosurgery, and systemic cancer therapies, with advanced expertise in complex oncological cases.

He is currently the Clinical Lead for Stereotactic Radiosurgery and Head of Training at a major London cancer centre, and has been ranked first nationally for Clinical Oncology specialty training in the UK.

Dr Rozati has extensive experience in the management of uro-oncology and neuro-oncology cases, including prostate, bladder, renal, brain tumours, and metastatic disease. He is highly experienced in Gamma Knife, CyberKnife, and LINAC-based stereotactic radiosurgery, as well as stereotactic ablative radiotherapy (SABR).

He is a Principal Investigator in multiple clinical trials, senior author of national radiotherapy guidelines, and a published academic with contributions to leading journals and textbooks, including Kumar & Clark.

Dr Rozati provides expert opinion in clinical negligence and complex oncology cases, offering clear, evidence-based and well-structured medico-legal reports.

# My Profile & Key Experience

## Areas of Expertise

- Clinical Negligence in Oncology
- Delay in Diagnosis of Cancer
- Radiotherapy Planning and Delivery Errors
- Stereotactic Radiosurgery Complications
- Failure or Delay in Cancer Treatment
