Regional One Health The New Campus

MEMPHIS, TN

The new campus will replace aging facilities and provide a more efficient environment for patients, families, and staff while supporting advances in medicine, technology, and patient-centered care. This project is designed to transform the health and well-being of the Memphis community and help ensure patients have access to high-quality care in a facility designed for the needs of the future. The new campus will be delivered by a team led by Memphis Healthcare Builders (a joint venture of Turner Construction Company, Flintco Construction, Nickson General Contractors, and Fifer & Associates).

Trade Partner - Preconstruction/ Design-Assist
