EXPERT SUPPORT FOR RESIDENTIAL & RURAL LAND OWNERS

NICKLIN CE
SURVEYING PLANNING ENGINEERING

INTRODUCING *RPC LIMITED* – UNIFIED EXPERIENCE – STRONGER TOGETHER, LOCALLY GROUNDED

RPC Limited represents the combined strength of RPC - Surveying Planning Engineering (Bay of Plenty), RPC - Surveying Planning Engineering (Auckland), and the July 2023 acquisition of Nicklin CE - Surveying Planning Engineering, in Cambridge. Together, we bring an integrated team of land surveyors, planners, and engineers, offering a comprehensive range of services to support the successful delivery of land development and infrastructure projects across the triangular route of Auckland to Waikato to Bay of Plenty and in between.

While we operate as one unified group, we remain firmly grounded in our company values. Each region proudly retains its own local identity, shaped by the unique culture and expectations of its community. We honour the long-standing relationships and trust built over decades by maintaining dedicated offices and operational teams in each region, ensuring we stay connected, responsive, and respectful to the people we serve.

So, why choose RPC - Surveying Planning Engineering or Nicklin CE - Surveying Planning Engineering (*RPC Limited*), for your next project?

When your project can't afford delays, guesswork, or costly mistakes, our company delivers clarity and confidence. With an office in Auckland, Waikato, and Bay of Plenty, we combine the reach and resources of a united team with the personal service and local knowledge only true locals provide. Our surveying, planning and engineering solutions work seamlessly to fast-track approvals, maximise accuracy, and uncover smarter solutions that can protect your investment. From small to large and complex projects, we solve problems, navigate regulations, and keep your project moving forward.

SUPPORTING YOUR SUCCESS BY TRANSFORMING YOUR VISION INTO REALITY

★★★★★
5 Star Google Review

“RPC has been our go-to company for surveying, sub-division, and working with our local councils on resource consents. They have become an integral part of our Group home-building business. We have found them to be knowledgeable, supportive, and reliable and would highly recommend them to anyone.”

– Wayne Minnell, Franchisee,
Trident Homes Tauranga Western Bay

“RPC has proved to be an invaluable asset for us on this project. They stand out because of their efficiency, practical approach, and top-notch communication skills. Their attention to detail benefits our project significantly, making our tasks much easier.”

– Jesse Beetham,
Tonkin + Taylor

SUPPORTING RESIDENTIAL & RURAL LAND OWNERS WITH PRACTICAL LAND DEVELOPMENT EXPERTISE

Successful construction projects rely on accurate information, good planning, and strong coordination between the many people involved throughout the development process.

RPC - Surveying Planning Engineering work alongside residential and rural landowners, project managers, builders and developers to provide the surveying, planning and engineering expertise needed to support projects from initial concept through to completion.

With more than 50 years of experience in land development, our team understands the challenges that can arise during construction. Our role is to provide practical advice, accurate information, and reliable technical support that helps projects move forward with confidence.

How We Support Residential and Rural Landowners

Construction projects often involve multiple stakeholders, regulatory requirements, and technical considerations. We help simplify this process by providing integrated surveying, planning and engineering services under one roof.

Our team regularly works alongside:

- Residential and commercial builders.
- Construction companies.
- Project managers.
- Developers and landowners.
- Structural engineers.
- Councils and regulatory authorities.
- Solicitors and legal professionals.

By working collaboratively with all parties involved, we can help ensure projects remain well coordinated and informed throughout each stage of development.

Surveying Services

Accurate surveying provides the foundation for successful construction.

We assist Residential & Rural Land Owners with:

- Site set-out surveys.
- Boundary identification and reinstatement.
- Construction surveying.
- Topographical surveys.
- As built surveys.
- Subdivision surveys. [\[Refer more on Page 7 \]](#)

Our survey information helps provide clarity on-site and supports informed decision-making throughout the construction process. Planning and Consent Support.

Planning Services

Development projects often require careful navigation of planning requirements and council processes.

Our planning team assists with:

- Resource consent applications.
- Subdivision consents.
- Development feasibility assessments.
- Planning advice.
- Council liaison and coordination. [\[Refer more on Page 7 \]](#)

By identifying potential planning considerations early, we help clients understand requirements and avoid unnecessary delays where possible.

SUPPORTING YOUR SUCCESS BY TRANSFORMING YOUR VISION INTO REALITY

★★★★★
5 Star Google Review

“ We used RPC Land Surveyors for our subdivision project in Auckland and couldn't be happier with how it all went. Hilton and the team were knowledgeable, professional, and easy to deal with from the very first conversation. Their communication throughout the project was great, and we always felt kept in the loop.

Would highly recommend RPC to anyone looking for a reliable and experienced surveying team. ”

– Shane
Auckland, New Zealand

SUPPORTING RESIDENTIAL & RURAL LAND OWNERS WITH PRACTICAL LAND DEVELOPMENT EXPERTISE

Engineering Services

Our engineering services provide practical design solutions that support the delivery of land development and construction projects.

Services include:

- Civil infrastructure design.
- Stormwater and wastewater design.
- Earthworks design.
- Roding and access design.
- Utility servicing coordination. [\[Refer more on Page 7 \]](#)

All engineering work is completed in accordance with relevant standards and regulatory requirements, providing confidence for builders, developers and approving authorities.

Working Together Throughout your Project Lifecycle

Every project is different, but clear communication and collaboration remain essential.

We work closely with project teams throughout the development process, helping to coordinate information, manage technical requirements and provide advice when challenges arise.

Whether supporting a single residential build, a commercial development or a large scale subdivision, our focus remains the same: providing practical expertise that helps clients make informed decisions and keep projects progressing.

Local Knowledge, Trusted Experience

RPC - Surveying Planning Engineering has been supporting land development projects across Auckland, Waikato and the Bay of Plenty for more than five decades. ***Offering you and your project 50+ Years of Local Industry Experience and Expertise.***

Our experience across a wide range of developments provides us with a strong understanding of local requirements, council processes, and the practical realities of delivering successful projects.

We are committed to providing clear advice, accurate information, and reliable support that helps builders and construction professionals achieve successful project outcomes.

Top Ten Reasons why Residential and Rural Landowners choose to Partner with RPC - Surveying Planning Engineering

- 1. More Than 50+ Years of Industry Experience.**
- 2. Specialist Surveying, Planning and Engineering under one roof.**
- 3. Early Identification of Potential Issues.**
- 4. Accurate Information for Better Decision Making.**
- 5. Strong Understanding of Local Council Requirements.**
- 6. Practical and Commercially Focused Advice.**
- 7. Support Throughout the Entire Development Process.**
- 8. A Collaborative Client Focused Approach.**
- 9. Commitment to Safety, Quality and Professional Standards.**
- 10. A Long Term Land Development Project Partner.**

5 Star Google Review

“ RPC Land Surveyors has been the best ! There is nothing they can’t solve. Whether is surveys, dealing with councils, driveways, paths drainage, consents, titles and anything and everything to do with building I can safely say RPC can get it done. RPC has given us the peace of mind needed to get through the whole process, quick to help and solve anything that may arise. We recommend RPC to anyone considering building. The entire experience has been excellent and painless. All the best. ”

- Andrew & Grace Peach

★★★★★
5 Star Google Review

“ RPC are easy to work with, very knowledgeable, and great problem solvers. They do surveying, subdivision documentation, water/ sewer engineering, they have their own planner on staff...they pretty much do the whole subdivision development package ... highly recommended. ”

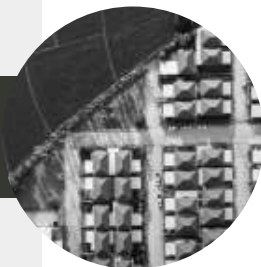

- Ralf Fields

5 Star Google Review

“RPC have been excellent to deal with in the subdivision of our site, communication has been simple and easy from the start and they have proved them selves to be very efficient problem solvers saving stress and money.”

– Jake Segerstrom
Tauranga, Bay of Plenty

OUR HISTORY

A rich & colourful past

RPC Limited, are far more than just the traditional image of a bloke with a theodolite. Our story is one of tradition intertwined with innovation.

Our journey began in 1970 when John Rainford established a small survey practice in Whakatane, laying the foundation for our commitment to precision and excellence. In 1984, Peter Crane’s appointment marked a significant milestone. He served as a Director at RPC - Surveying Planning Engineering (Mt Maunganui), overseeing operations from our Mount Maunganui headquarters. Expanding in 2001 with the opening of our Auckland office, we strategically positioned ourselves to meet the growing demand for surveying services. Furthering our growth, in 2023, we purchased Nicklin CE - Surveying Planning Engineering as a great acquisition, extending our presence into the Waikato region, while also enhancing the opportunity for shared resources and experience.

But our story doesn’t end there

We’re not complacent; we’re dedicated to staying updated with the latest surveying practices and technologies to remain leaders in our field. Embracing innovation and cutting-edge tools, we ensure exceptional results for our clients, fostering continuous growth driven by excellence and a commitment to facing tomorrow’s challenges.

MEET THE DIRECTORS AND BRANCH MANAGERS

SINCE 1994

PAUL ELLISON

Director / Licensed Cadastral Surveyor
Registered Professional Surveyor
BSurv, MS+SNZ

With 35 years of surveying under his belt, Paul leads with expertise and vision and is known for his industry knowledge. Paul maintains a competitive edge by staying up to date with industry trends and regulatory changes. When not in the office, you need to look to the sea or the skies, as Paul is a keen sailor as well as a qualified pilot.

WAIKATO/MT BRANCH

SINCE 2009

BLAIR JACKSON

Director / Licensed Cadastral Surveyor
Registered Professional Surveyor
BSurv, MS+SNZ

Blair became a Director of RPC in 2009, accumulating 28 years of expertise in rural and urban surveys, focusing on Subdivisions and LT Surveys. He values client relationships and excels in optimising project outcomes across all scales. Beyond work, he relishes family time with his wife & daughter, either at the pool/beach officiating race meets or at Papamoa Beach supporting the Surf Life Saving Club.

MT MAUNGANUI BRANCH

SINCE 2016

HILTON WATSON

Director / Licensed Cadastral Surveyor
Auckland Branch Manager
BSurv Credit, N.D.S, MS+SNZ

With over 23 years in surveying and engineering design, specialising in land development projects. Hilton prioritises cultivating strong client relationships, demonstrating exceptional foresight and problem-solving skills. In his spare time, Hilton can be found playing on the rugby field or bowling green, spending quality time with his partner & daughter exploring everything Auckland & the world have to offer.

AUCKLAND BRANCH

SINCE 2024

PAUL HARVEY

Director / Licensed Cadastral Surveyor
Mount Maunganui Branch Manager
Registered Professional Surveyor
BSurv, MS+SNZ

After earning his Licensing Certification with RPC, Paul worked overseas, gaining experience on central London high rises as well as a Western Australian mine. He rejoined RPC in 2015, specialising in project management, land development projects, land transfer surveys, and engineering set-out. Outside of work, Paul enjoys time with his wife and young family, cheering for the Chiefs rugby team, and relaxing on the beach.

MT MAUNGANUI BRANCH

SINCE 2023

RHYS KELLY

Associate / Licensed Cadastral Surveyor
Cambridge Branch Manager
BSurv, MS+SNZ

Meet our Cambridge branch manager, a licensed cadastral surveyor who thrives on the complexities of land development. With a passion for advanced surveying technology, including UAVs, he brings precision to every project. Balancing a bustling home life with his young family, he's a true Cambridge local who enjoys the Waikato district's vibrant community and outdoor pursuits.

WAIKATO BRANCH

MEET THE PLANNERS

SINCE 2024

TOM CHRISTIE

Planning Task Lead | BEP, Int.NZPI.

As a Tauranga local with family based in the Bay of Plenty, I've always had a strong connection to the region and its communities. Watching the area grow and evolve over the years has given me a real appreciation for the balance between development, environmental values, and maintaining the qualities that make this region such a great place to live.

What I enjoy most about planning is the problem solving aspect. Every project presents its own challenges, and I find it rewarding working with clients, councils, and project teams to find practical solutions and help projects move forward. I also enjoy being part of a great team of like minded people who are passionate about what they do and committed to achieving positive outcomes.

Outside of work, you'll usually find me making the most of the outdoors. I enjoy fishing, hunting, hiking, working in my vegetable garden, and following sport. When I'm not out exploring the region, I'm often working on renovation projects around my house. Living and working in the Bay of Plenty allows me to combine my professional interests with the lifestyle I enjoy, which is something I value greatly.

MOUNT MAUNGANUI BRANCH | SERVICING AUCKLAND
WAIKATO AND BAY OF PLENTY BRANCH

SINCE 2026

GARETH MORAN

Senior Planner | BRS, MNZPI.

A product of Te Kuiti, I have over 20 years' experience in the planning industry I am passionate about local projects and working with local people. Across my career, I have built a strong understanding of resource management processes from both a local government and private consultant perspective, spending the last seven years working for private based clients within the Waikato Region. Prior to that, I managed the consent department at Waipa District Council.

Away from work, I have two young boys (0 and 9) , and love nothing more than heading up a remote river fly fishing or getting the boat out on the ocean. To my detriment, I'm also a passionate NZ Warriors fan and enjoy refereeing Hautapu Junior Rugby on Saturday mornings in winter.

CAMBRIDGE BRANCH | SERVICING AUCKLAND
WAIKATO AND BAY OF PLENTY BRANCH

MEET THE PLANNERS

SINCE 2026

SIMONE WILLIAMS

Senior Planner | BEMP, Int. NZPI.

I have fourteen years of experience, including time in local government and private practice. My experience includes the preparation and management of complex resource consent applications for residential, industrial, rural and subdivision developments, including notified applications. I have also prepared and presented planning evidence at Council hearings, acted as the planning lead for applicants in Environment Court mediation and provided due diligence and feasibility advice to clients across New Zealand.

For me, planning is about people, places and problem solving. I enjoy working with clients to understand what they are trying to achieve, then helping them navigate the consenting process in a practical and efficient way. I also enjoy the variety of the work. No two projects are ever quite the same.

When I’m not at work, I’m usually out adventuring with my two children, aged 5 and 9. We love getting outdoors and exploring new places together. I also love skiing and running, and my happy place is definitely in the mountains, preferably with snow.

CAMBRIDGE BRANCH | SERVICING AUCKLAND WAIKATO
AND BAY OF PLENTY BRANCH

SINCE 2018

KERRY THOMPSON

Planner

Having grown up in Cambridge, I have a strong connection to the area and a real appreciation for the people, places, and lifestyle that make this region such a great place to live. I enjoy the balance Cambridge offers, with easy access and short drives to beaches, camping spots, the outdoors, and the snow, while still being part of a close and active local community.

My involvement in resource management planning has developed naturally through my work with the team, and while it is not my only area of focus, it has become an aspect of the job that I really enjoy. Much of my work involves compliance and supporting projects as they progress through to completion, which has given me the opportunity to understand our clients’ needs from the outset and see projects through from start to finish. I find it rewarding being involved across different stages of a project, understanding the project parameters early, and helping ensure matters are worked through in a practical and organised way.

One of the aspects I value most is being part of a supportive and knowledgeable team. Having access to guidance, direction, and shared experience has been an important part of my development and allows me to contribute confidently while continuing to learn.

Outside of work, I am part of a very active household. Mountain biking, BMX racing, hiking, camping, and school sports keep us busy throughout the week and on weekends. I enjoy being able to work in a field that connects with people, places, and communities, while also living in an area that supports the lifestyle my family and I enjoy.

OUR COMMUNITY ENGAGEMENT

TAURANGA GLIDING CLUB

Paul Ellison finds great joy in dedicating his spare time to the Tauranga Gliding Club. His involvement spans multiple areas, including flying the tow plane, flight instructor for trainee pilots, helping coordinate events, and mentoring new members. Paul’s passion for aviation and his commitment to community service shine through in his continued support. Whether he’s on the airfield launching gliders or behind the scenes, helping train new pilots. Paul plays a vital role in the smooth running of the club. His voluntary efforts not only contribute to the club’s success but also help foster a supportive environment for aspiring glider pilots in the Bay of Plenty.

PAPAMOA SURF LIFE SAVING CLUB

Blair Jackson is deeply committed to giving back to the community. He actively supports the Papamoa Surf Lifesaving Club, contributing both his time and resources to help ensure the safety and well-being of beachgoers as his role of Patrol Support over the Summer period. Blair also participates as a Surf Official at Surf Living Saving events on the beach over summer as well as the pool in winter. His passion for the ocean and community service shines through in everything he does. Blair’s support of the Papamoa Surf Lifesaving Club and Surf Life Saving New Zealand reflects his values of leadership, responsibility, and community spirit, making a positive impact on countless lives along the Bay of Plenty coast.

ŌTANEWAINUKU KIWI TRUST

Peter Crane is a dedicated board member of the Ōtanewainuku Kiwi Trust. He plays a vital role in supporting the Trust’s mission to protect and restore kiwi populations in the Ōtanewainuku Forest. Peter is actively involved in coordinating and motivating volunteers, ensuring essential conservation efforts run smoothly. He helps organise key initiatives such as kiwi releases, community engagement events, and pest control operations, which are crucial for maintaining a safe habitat for native wildlife. Through his leadership and hands-on involvement, Peter contributes significantly to the Trust’s ongoing success in kiwi conservation and forest restoration.

PAKURANGA UNITED RUGBY CLUB AND BOWLING CLUB

Hilton Watson is a proud advocate for his local community and a passionate supporter of New Zealand sport, particularly rugby and lawn bowls. Hilton is an active playing member of both the Pakuranga United Rugby Club, where he is a member of the Senior Rugby Committee helping to steer the direction of the senior playing group to success and the Pakuranga Bowling Club, where he volunteers as a fully licensed Duty Manager. Hilton regularly donates his time and resources to support local sporting initiatives. His involvement ranges from attending events and volunteering behind the scenes to fostering connections among members and promoting a sense of unity. Hilton’s commitment to these clubs mirrors the values we hold as a surveying company, community-driven, collaborative, and dedicated to quality. His ongoing engagement with these organisations reflects our broader goal of contributing meaningfully to the communities we help shape.

OUR PROFESSIONAL ASSOCIATIONS AND INDUSTRY CONNECTIONS

ToTika

ToTika is important in the surveying industry as it ensures professionals meet consistent competency standards. It enhances trust, promotes safety, and maintains quality across surveying practices. By verifying qualifications and skills, ToTika supports industry credibility, workforce capability, and regulatory compliance, ultimately contributing to better project outcomes and public confidence.

Survey and Spatial New Zealand

Survey and Spatial New Zealand is crucial to *RPC Limited* as it ensures precise land development, regulatory compliance, and data accuracy. Their expertise supports infrastructure, planning, and engineering projects, reducing risks and enabling smarter decision-making. This partnership enhances project efficiency, sustainability, and long-term value for stakeholders and communities.

CSNZ | The Consulting Surveyors of New Zealand

CSNZ plays a vital role in uniting professionals, setting industry standards, and advocating for best practices. Its partnerships foster innovation, consistency, and trust within New Zealand’s surveying sector, ensuring quality outcomes across projects. As a central voice, CSNZ strengthens collaboration and drives growth for all surveying industry stakeholders.
