

MATCH THE ROLLER TO THE JOB

A practical starting point for your grounds team and purchasing department.

Shown: Push 2.0 XL

Shown: Pull-Behind BIGFOOT

Push 1.0 Classic	12-inch pickup width. Hand-pushed option for smaller problem areas.
Push 2.0 XL	18-inch pickup width. A wider hand-pushed option; no tow vehicle needed.
Pull-Behind Original	Tow-behind option to assess for larger accessible ground and suitable equipment.
Pull-Behind BIGFOOT	Another tow-behind option. Confirm configuration and towing fit with SBR.

Before choosing: Check surface conditions, approximate area, access, available towing equipment, and crew needs. A multi-site team may need a mix of models.

What it collects: Loose surface burrs. It does not remove living plants or buried seed. Preparation and repeated passes may be needed.

Institutional and bulk discounts available upon request.

Send your organization, sites, model interest or quantity, and needed-by date. SBR confirms configuration, price, and lead time before purchase.
