REMOTE CARE TODAY

"I'm providing better care for my patients, generating new reimbursements for my practice."

Improve MEMORY, BALANCE, COGITION Delay ALZHEIMER'S / DEMENTIA

Physicians typically don't know what is happening with their patients outside of their own four walls. Now they can.

Our remote care platform engages patients to help them manage their health and provides physicians advanced notification of impending problems

- No upfront cost to you
- No long-term contract
- No device charges
- Improved patient care
- Reduced hospital and ER admissions
- No work for your staff
- **New revenue for your practice**
