Smart profile door lock

DDL611-18HBS

Dual-sided fingerprint lock

Double security for every family members

Enjoy daily safe entry with the dual fingerprint lock! DDL611-18HBS has fingerprint sensors on both sides, ensuring only authorized access. This prevents suspicious individuals from reaching in. Choose DDL611-18HBS for peace of mind!

32mm* narrow profile | Designed for narrow-frame doors

The DDL611-18HBS features a 32mm narrow profile, compatible with narrow-frame doors ranging from 25-70mm* thick. It works seamlessly with various door types, including aluminum, thermal break aluminum, sliding, and courtyard gates. Whether for home or business, the DDL611-18HBS is the ideal choice!

*32mm: data based on actual measurements, with a tolerance of ± 2 mm.

*25-70mm: The included installation kit is suitable for doors with a thickness of 25-70mm. For doors outside this range, please consult an authorized dealer or customer care center for compatible products.

Work with Home Access App* | Stay informed about your doorstep while away

The DDL611-18HBS works with the Home Access App, allowing you to connect to the network via a gateway. You can easily check lock operation records, doorbell notifications, and entry logs on the app anytime. Anomaly alerts will be sent as pop-up notifications, keeping you informed about your doorstep's status and providing peace of mind.

*Home Access App: DDL611-18HBS works with Home Access App.

Versatile unlocking options | Convenient and secure access

The DDL611-18HBS outside assembly supports four unlocking methods: fingerprint, PIN code, key tag, and mechanical key. The inside assembly offers three options: fingerprint, Bluetooth key, and mechanical key. Once a fingerprint is registered, it can be seamlessly used on both outside and inside assemblies, ensuring your access is both convenient and secure.

Custom access control PIN* | Tailored to meet all visitor entry needs

After connecting to the gateway and binding the app, the DDL611-18HBS easily meets the entry needs of different visitors. You can customize a range of temporary PIN codes, including one-time codes* valid for 6 hours, recurring codes*, or time-limited codes*. Share these temporary PIN codes remotely for convenient and secure access for your guests!

*Access control PIN: A general term for various temporary PIN solutions, including one-time codes, recurring codes, and time-limited codes.

* One-time codes: a maximum of 10 unique time-limited one-time codes can be generated within 1 hour.

* Recurring codes: codes that can be reused at specific times each week.

* Time-limited codes: codes set to be valid within a specific duration.

Duress unlock | Instant alerts via App

In emergency situations, using a pre-set duress unlock method (fingerprint or password) will trigger the lock to instantly send a duress alert notification to the administrator's app and the apps of authorized shared device users. The app will show pop-up alerts to provide security warnings, helping to enhance household safety.

Real-time push alerts | Say goodbye to the security concerns

The DDL611-18HBS features multiple alert functions, including tamper alerts, system locking, and low battery notifications. In the event of an anomaly, alert information will be instantly pushed to the app, providing comprehensive home security and peace of mind.
