

KEYNOTE SPEAKER | AUTHOR | BUSINESS ARCHITECT

Kathy Baldwin changes the way audiences see the problem.

She makes the invisible structures shaping business, leadership, technology, behaviour, and change easier to see, name, and redesign.

WHY KATHY

She does not give the room another answer. She helps the room see what it has been missing.

Kathy brings more than forty years of experience across sales, operations, leadership, customer experience, technology, process improvement, personal transformation, and founder-led business. Her talks challenge surface-level solutions and help audiences identify the structure underneath the visible problem.

SIGNATURE KEYNOTES

YOU ARE NOT THE SYSTEM

How founder dependency develops, why growth makes it more visible, and what must change before the business can scale.

ARCHITECTURE BEFORE AUTOMATION

Why tools, workflows, and AI cannot fix unclear logic, broken pathways, or missing business architecture.

MAKING THE INVISIBLE VISIBLE

How hidden expectations, undocumented knowledge, emotional labour, and personal patterns shape performance and change.

A new way to see the problem and a clearer way to move it.

- 1 Identify where one person has become the system.
- 2 Distinguish symptoms from structural causes.
- 3 Recognize where personal and operational patterns reinforce one another.
- 4 Understand what belongs with people, process, systems, automation, or AI.
- 5 Ask better questions before hiring, scaling, automating, or adding more technology.

BEST-FIT AUDIENCES

- Founders and entrepreneurs
- Women in business
- Leadership teams
- Business associations
- Technology and AI audiences
- Corporate learning and change events
- Podcast and media audiences

WHAT ORGANIZERS CAN EXPECT

- Clear pre-event discovery
- Topic and audience alignment
- Tailored examples and language
- Practical frameworks rather than filler
- Direct audience engagement
- Professional event communication
- Promotional support using approved assets

ABOUT KATHY

Kathy Baldwin is the founder of Finally Business Systems and the author of *You Are Not the System*. Her work connects business architecture, founder behaviour, buyer experience, systems design, AI, and human intelligence. She is known for seeing the pattern beneath the visible problem and translating it into language audiences can use.

THE PRESSURE YOU ARE CARRYING IS OFTEN THE SYSTEM YOUR BUSINESS HAS NOT BUILT YET.
