SUSTAINABLE HYDRATION

Drinking Solutions for Every Application

Our drinking water products are designed to meet or exceed your needs and specifications. We have a wide variety of bottle filling stations and water coolers that comply with adult or child ADA standards, as well as models that offer the added assurance of our WaterSentry® filters.

We offer products for any space and industry, indoors and outdoors:

- 
EDUCATIONAL INSTITUTIONS
- 
FACTORIES AND WAREHOUSES
- 
HEALTHCARE
- 
HOTEL
HOSPITALITY ENVIRONMENTS
- 
GYM
INDOOR FITNESS CENTERS
- 
OFFICE BUILDINGS
- 
PARKS AND RECREATION AREAS
- 
RESIDENTIAL
- 
TRANSPORTATION STATIONS

HYDRATION WHERE IT'S NEEDED MOST

From workplaces to schools and public buildings, we supply hygienic, sustainable bottle filling stations designed to reduce plastic waste and improve access to clean drinking water.

OUR VISION

We're building a refill culture that leaves single-use plastics behind. That means practical, durable water stations where people live, learn, work and play, backed by expert advice, nationwide delivery, and long-term support.

Whether you're installing one unit in a school hallway or rolling out a network across a major transport hub, we're here to make it easy, and impactful.

ezH2O® Bottle Filling Stations

ezH2O® units have great features to provide convenient, sustainable and healthy hydration.

Hands Free

Sensor activation and bottle rest platform provide users with a touchless bottle filling experience.

Minimal Splashing

Dispenses a clean, laminar flow of water so there's minimal splashing.

Filter Status Lights

Colourful lights indicate when filter needs changing so you always know you're getting filtered water.

Antimicrobial Protection

Inhibits the growth of mold and mildew.

Real Drain

The basin includes a real drain system to help with drainage and eliminate standing water.

Quick Fill and Laminar Flow

Fill rate is 4.1 LPM for refrigerated units and 5.7 LPM for non-refrigerated units.

Green Ticker™

Informs users of the number of 590 ml single-use water bottles saved from waste by using reusable bottle and cups.

Features vary by model.

Elkay EZH2O® Hands Free Bottle Filling Station

- **Bubbler:** Flexi-Guard® safety bubbler provides a flexible mouth guard to protect against injury
- **Activation:** Touchless sensor activation for bottle filling and push-bar activation for the drinking fountain
- **Filter:** WaterSentry® Plus 3000 gallon / 11 356 L filter certified to NSF/ANSI 42 & 53 for lead, particulates, chlorine, taste & odour reduction, with visual filter monitor light
- **Green Counter™:** Backlit LED counter showing number of single-use bottles saved
- **Location:** Rated for indoor service
- **Installation:** Wall-mount
- **Quick Fill Rate:** 1.1 to 1.5 GPH
- **Power:** 220–240 V / 50–60 Hz

Outdoor Tubular Bottle Filling Stations and Fountains

Our outdoor tubular bottle filling stations and drinking fountains offer attractive, long-lasting durability to withstand tough weather conditions. The strong exterior is made from Type 316 stainless steel — standard on all Elkay outdoor tubular models. They are built for busy areas such as parks, pools, golf courses, and school and work campuses.

Vandal Resistant

Vandal-resistant push buttons, bubblers and screws.

Sealed Freeze Resistance

Freeze-resistant models feature completely enclosed and sealed valves to keep water safe from contamination.

Quick Fill and Laminar Flow

Fill rate is 3.8 LPM. Fills bottles faster than a standard drinking fountain. Laminar flow produces a clean fill with minimal splash.

Type 316 Stainless Steel

Increased corrosion resistance makes this product ideal for high-saline environments such as coastal regions and outdoor areas where de-icing salts are common.

Colours

Evergreen
(Standard)

Blue

Black

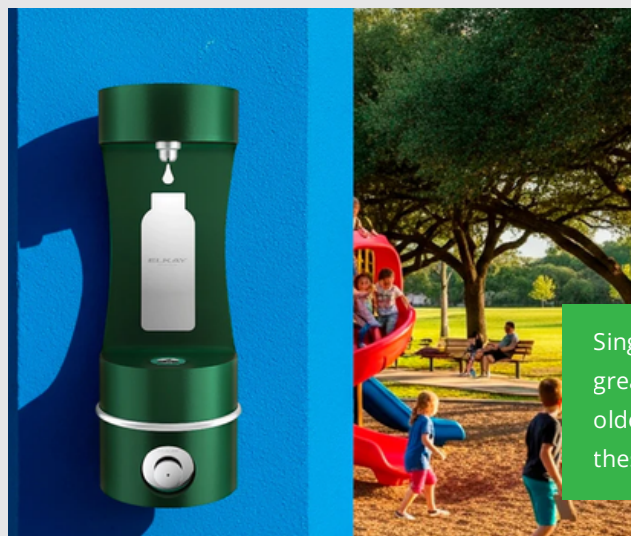

Gray

Colors apply to all units.

Foot Pedal Accessory

Convert outdoor bottle filling stations to hands-free units with this easy-to-install foot activation pedal. Order with a new unit or retrofit an existing one.

Wall-mount Models

With industry-leading construction, Elkay tubular wall-mount fountains and bottle filling stations are ideal for public spaces with high-traffic areas such as schools, parks and commercial buildings.

Single-line installation makes these units a great choice when upgrading or replacing older fountains. One waste line means these units are simple to maintain.

Features vary by model.

Elkay Outdoor EZH2O® Bottle Filling Station Pedestal

ezH2O Liv® Water Dispensers

Deliver cleaner, healthier water in a sustainable way with ezH2O Liv® water dispensers. Available in two configurations — Liv Pro for commercial use and Liv for residential use — this sleek in-wall solution provides eco-friendly filtered water on demand. Designed to fit seamlessly virtually anywhere, this stylish water delivery solution requires a small footprint but delivers big results: cleaner, healthier drinking water.

Seamless Design

Fits within the width and depth of two wall studs near water and electric. Includes drip tray with optional drain connection; can connect into existing water line. Fits into new and existing spaces.

Bottles Saved

Backlit LED Green Ticker counts the number of disposable, single-use plastic bottles served without the plastic bottle waste.

Sensor Activated

Hands-free filling with automatic timed shut off to help prevent accidental spills and messes. Safety lock setting prevents unsupervised use.

Filtered Water

Filter is tested and certified to NSF/ANSI 42 and 53 for the reduction of lead and other harmful contaminants. Filter status lights indicate when the filter needs to be replaced.

Residential: 750-gallon filter

Commercial: 3,000-gallon filter

Convenient and Sustainable

Self-serve design allows people to help themselves to refreshing water, at home or in commercial spaces, in an eco-friendly way.

Chiller Option

Unit can be installed with or without a chiller. See product page for details.
