## Construction Renovation Tragedy - Who's to Blame?

A routine construction project at a nursing home takes a tragic turn. A fire breaks out in the roof area of a new extension, hours after hot works were carried out.

Multiple people are injured.  
One person loses their life.

What caused the fire?  
Why did evacuation fail?  
Could it have been prevented?

Join us as we investigate the decisions, actions, and oversights that led to this devastating incident.

You'll hear from those involved: the principal contractor, the roofing company, the staffing agency, the scaffolder, and management staff.

Who was responsible?  
Who will be held accountable?  
**You decide.**

---
