EXPERIENCE

2017-2021 **WEBSITE DESIGNER**
Freelancing

In my last job as a website designer, I built user-friendly and visually appealing websites for clients using WordPress, Shopify, and Wix. I made sure the sites were responsive on all devices and focused on improving navigation, speed, and overall user experience. I also handled backend setup, domain configuration, payment integration, and troubleshooting when issues came up. I added features based on client needs and worked with a team to consistently deliver projects on time while meeting client expectations.

2021 - 2023 **WEBSITE DESIGNER & DEVELOPER |**
GO HIGH LEVEL EXPERT
Guerilla Apps

In my previous role as a Website Designer, I developed responsive and user-friendly websites using WordPress, Shopify, and Wix, with a strong focus on clean UI, intuitive navigation, performance optimization, and overall user experience. I also worked with GoHighLevel (GHL), integrating it with these platforms to support CRM functionality, lead capture, automation workflows, and seamless marketing funnel systems. This included connecting forms, pipelines, and tracking systems to ensure smooth data flow between websites and GHL. I collaborated closely with clients and team members to implement tailored features based on business needs and consistently delivered high-quality projects on time while meeting or exceeding expectations.

2023-2026 **GO HIGH LEVEL**
Billionaire Marketing

In my previous role at Runway Billionaire Company, I used GoHighLevel to build websites, funnels, and automation systems for clients. I handled everything from setting up workflows and triggers to customizing email sequences. My focus was to keep systems running properly and help clients generate and convert leads more effectively. I also made sure projects were delivered on time and met or exceeded expectations.
