

Stop Setting Your
Marketing Budget
on Fire.

The Failure-Proof
Marketing System™
(And the Case Studies
to Prove It)

Welcome to the “Feast or Famine”
Rollercoaster. Please keep your
hands inside the vehicle.

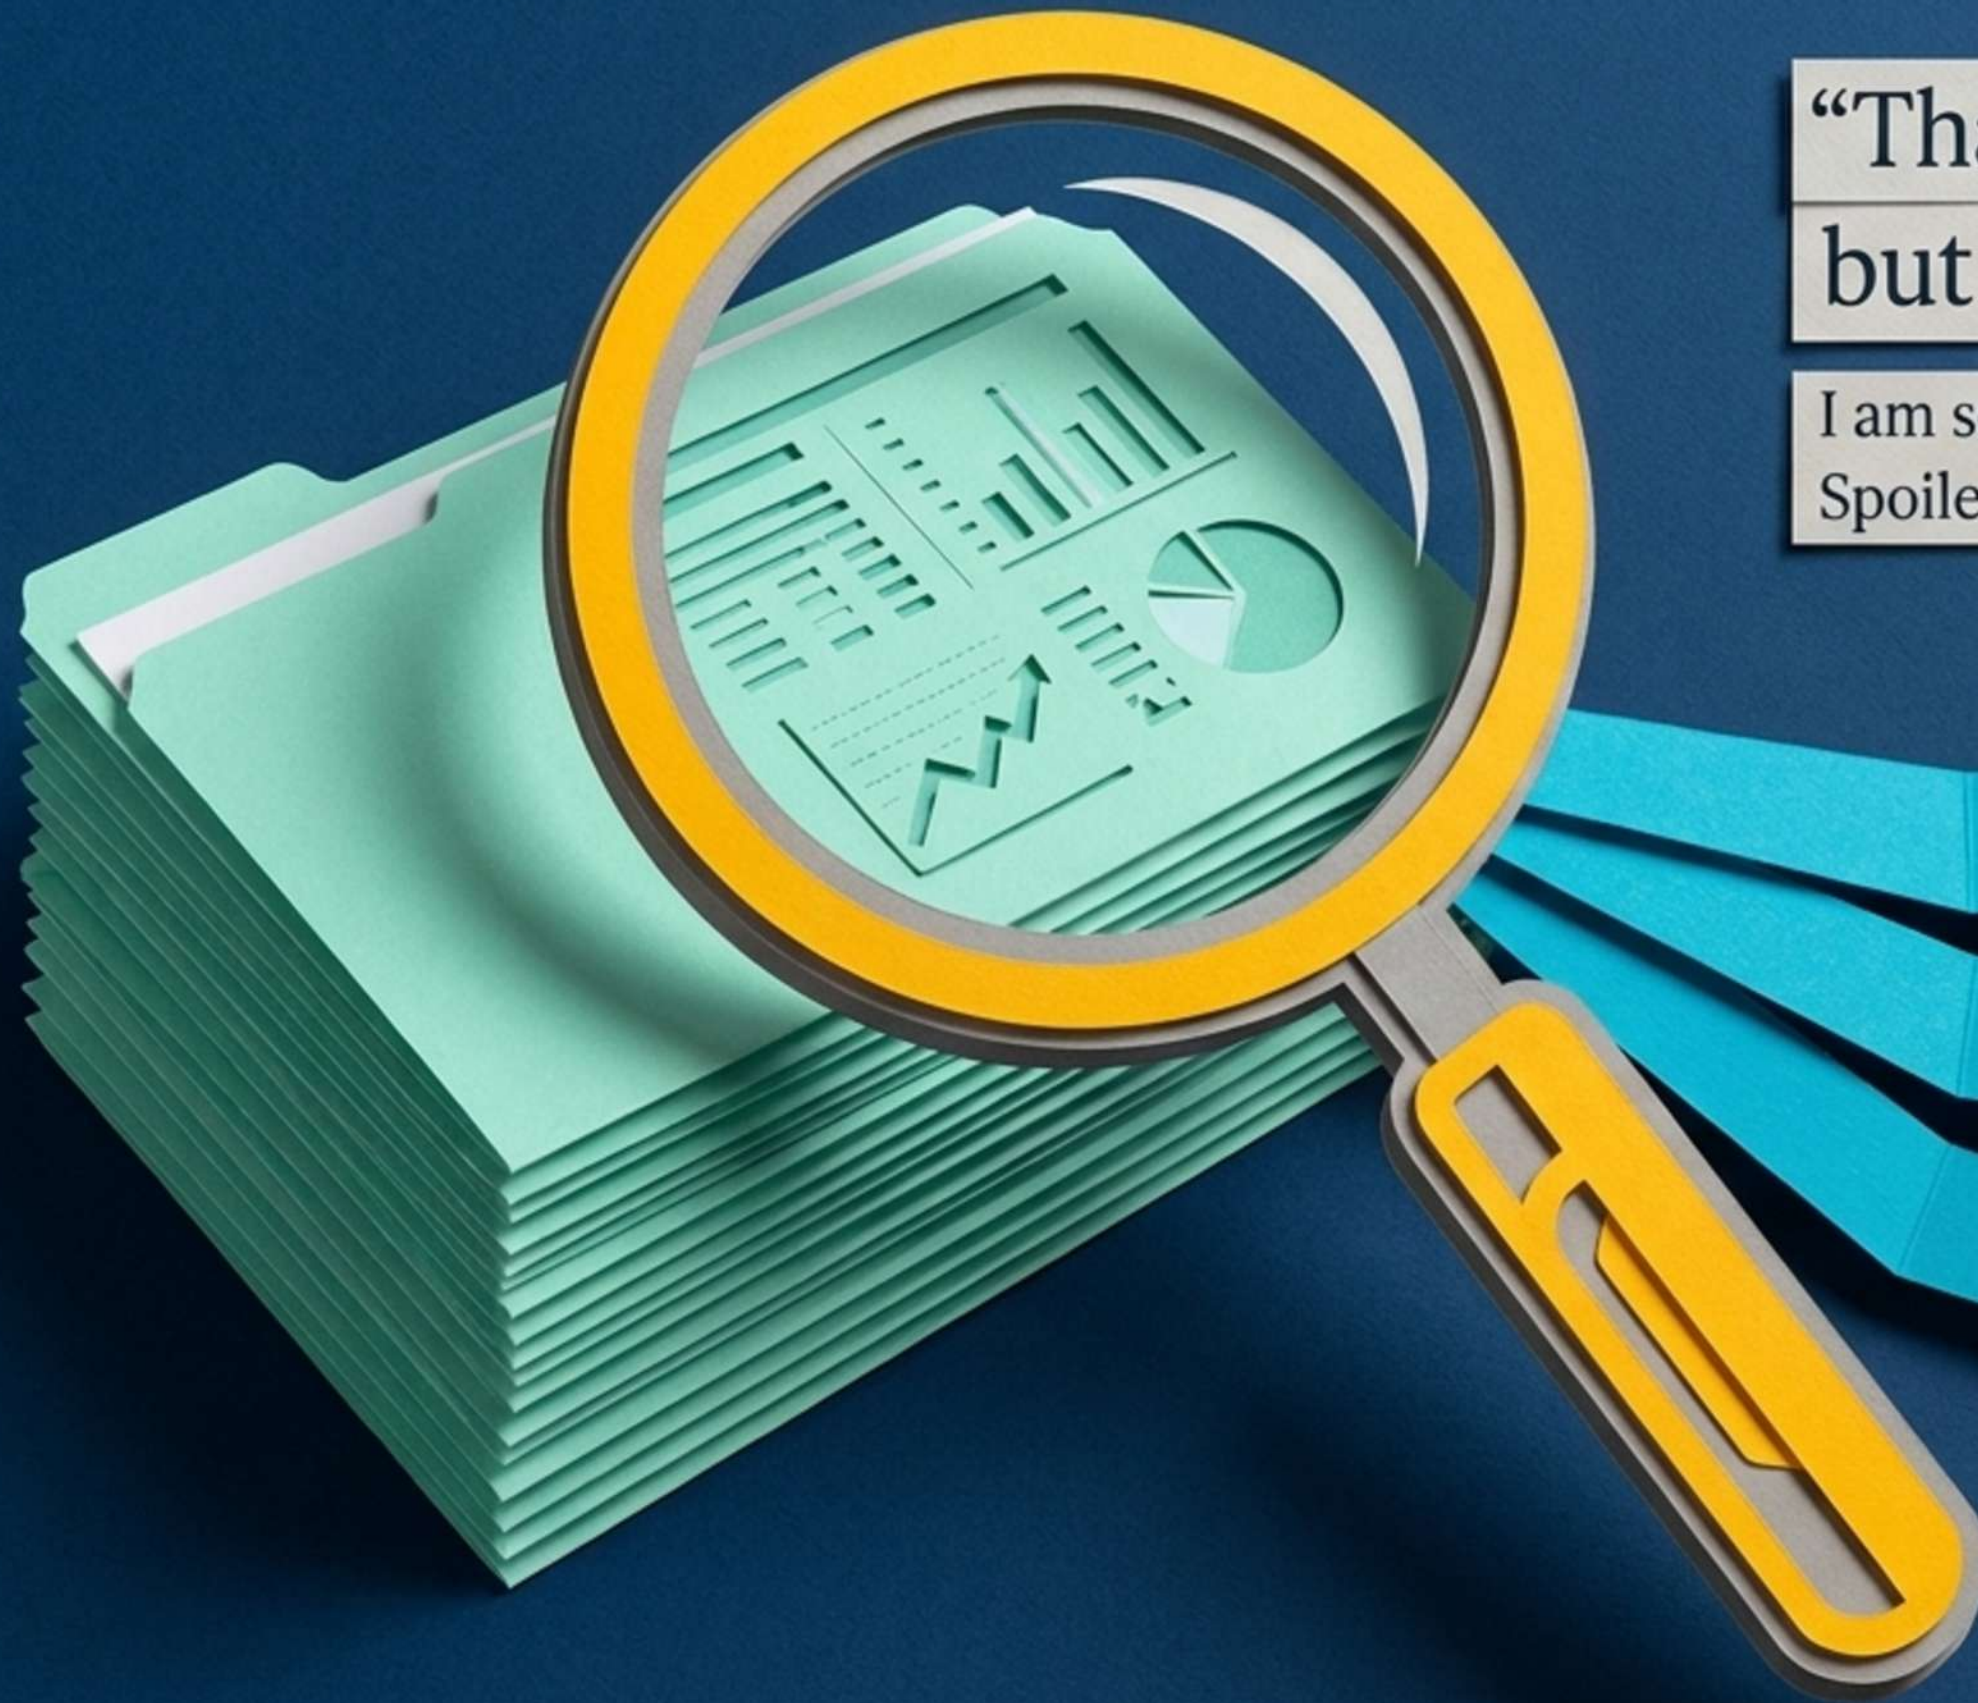

Most founder-led businesses don't fail because they lack talent. They struggle because their marketing is held together by improvisation, inconsistent messaging, and whatever tactic felt urgent on Tuesday. You deserve better than this stressful nonsense.

Enter: The Failure-Proof Marketing System™

A strategy-first operating system that makes marketing significantly harder to break.

“That sounds lovely in theory,
but does it actually work?”

I am so glad you asked. Let’s look at the evidence.
Spoiler alert: It works spectacularly well.

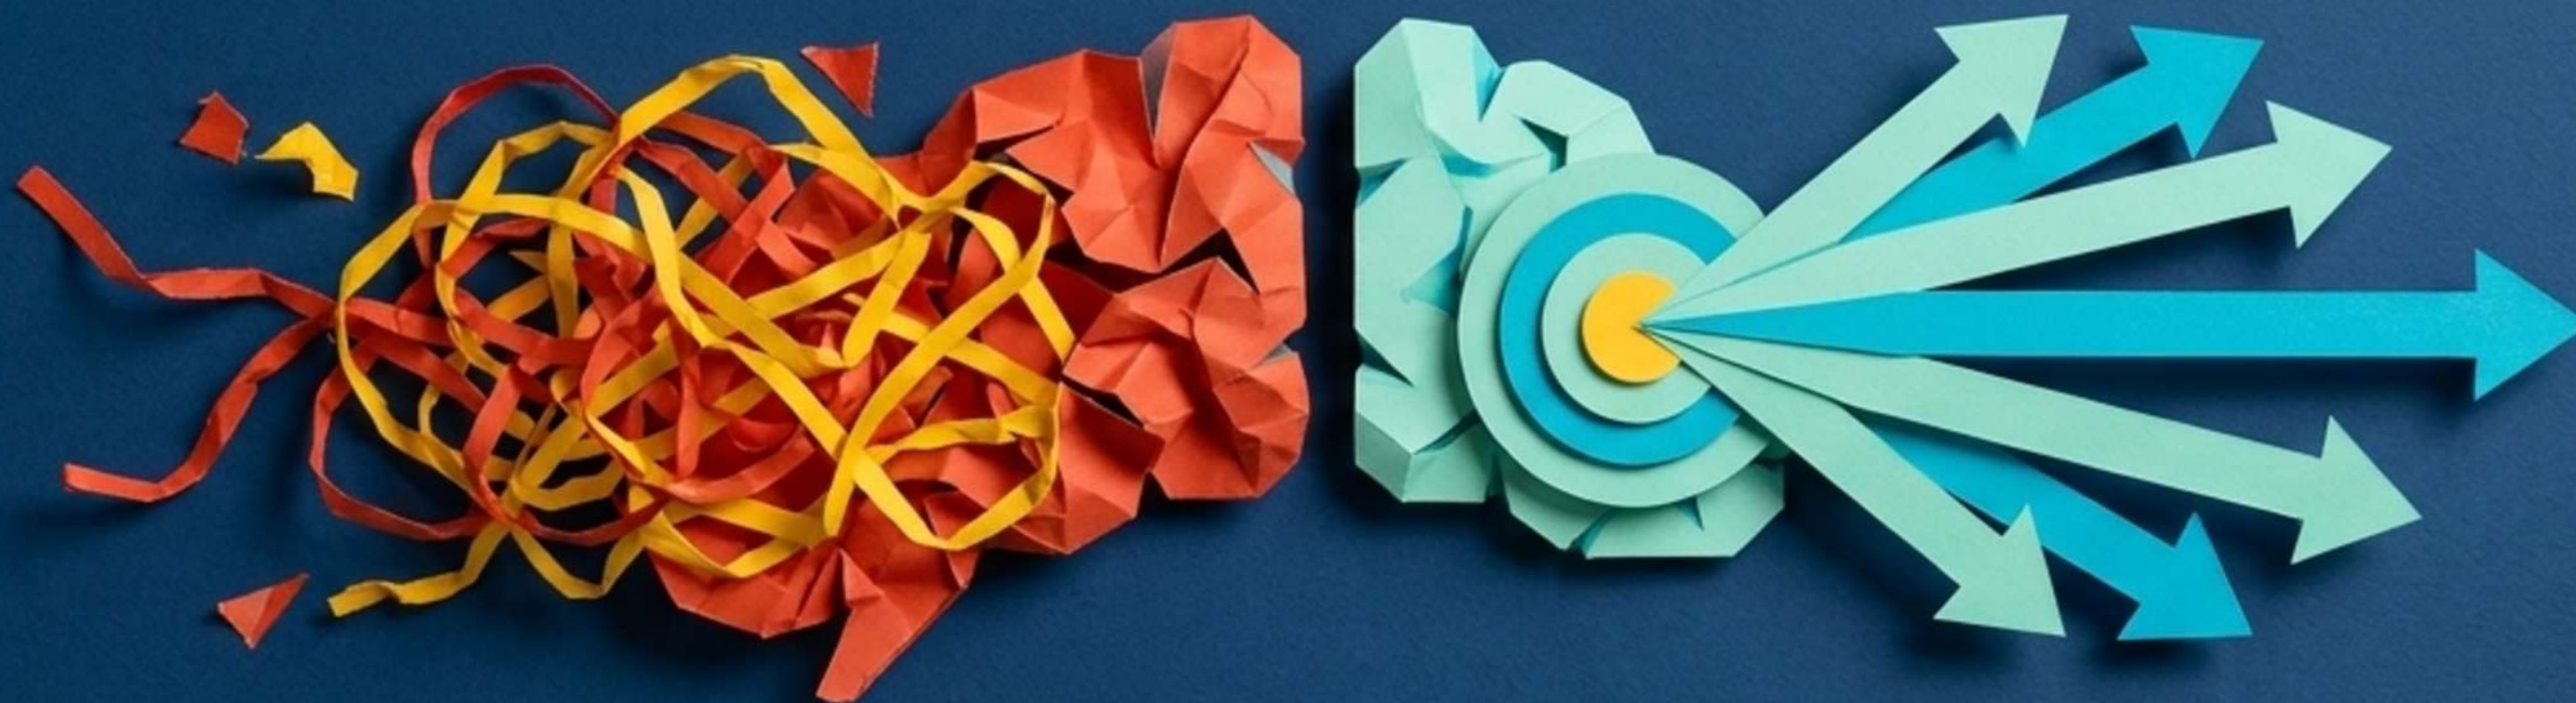

1. Exhibit A: The Strategy Rescues

2. Exhibit B: The Whole-Funnel Glow-Ups

3. Exhibit C: The Local SEO Takeovers

Exhibit A: Curing “Broad & Blurry” Syndrome.

Sometimes the problem isn't your ad spend; it's that nobody knows what you're actually saying.

Multi-Location Storage

Before: Fumbling through reactive, founder-dependent ideas.

After: A clear, scripted 12-month marketing roadmap. Signed retainer immediately.

Regional Property Mgmt

Before: Vague, frustrating plans from a previous agency.

After: Pinpoint accurate buyer personas that replaced anxiety with efficiency.

Accounting for Creatives

Before: Internal team couldn't align on how to describe their own offerings.

After: Total internal alignment, a cohesive growth plan, and a dramatic bump in lead quality.

The Luxury Retreat Builder & The Paradigm Shift

The Absurdity (Before)

Fumbling in the dark. Trying to sell high-end, custom weekend retreats using misaligned rental-market tactics.

The System (Action)

Strategy-First deep dive. Total online presence audit, customer persona creation, and a deliberate messaging pivot to second homes and retreat spaces.

The Reality (After)

A complete paradigm shift in the business trajectory. Strategically aligned marketing hitting the true target audience. The owner moved to a retainer and "wholeheartedly" recommends the process.

The Specialist Accounting Firm & The Unified Voice

The Problem

A fundamental messaging crisis. The team serving creative agencies could not even internally agree on how to describe the firm's own offerings.

The Fix

Strategy-First client interviews, competitor research, and mapping a cohesive strategy directly to execution tactics.

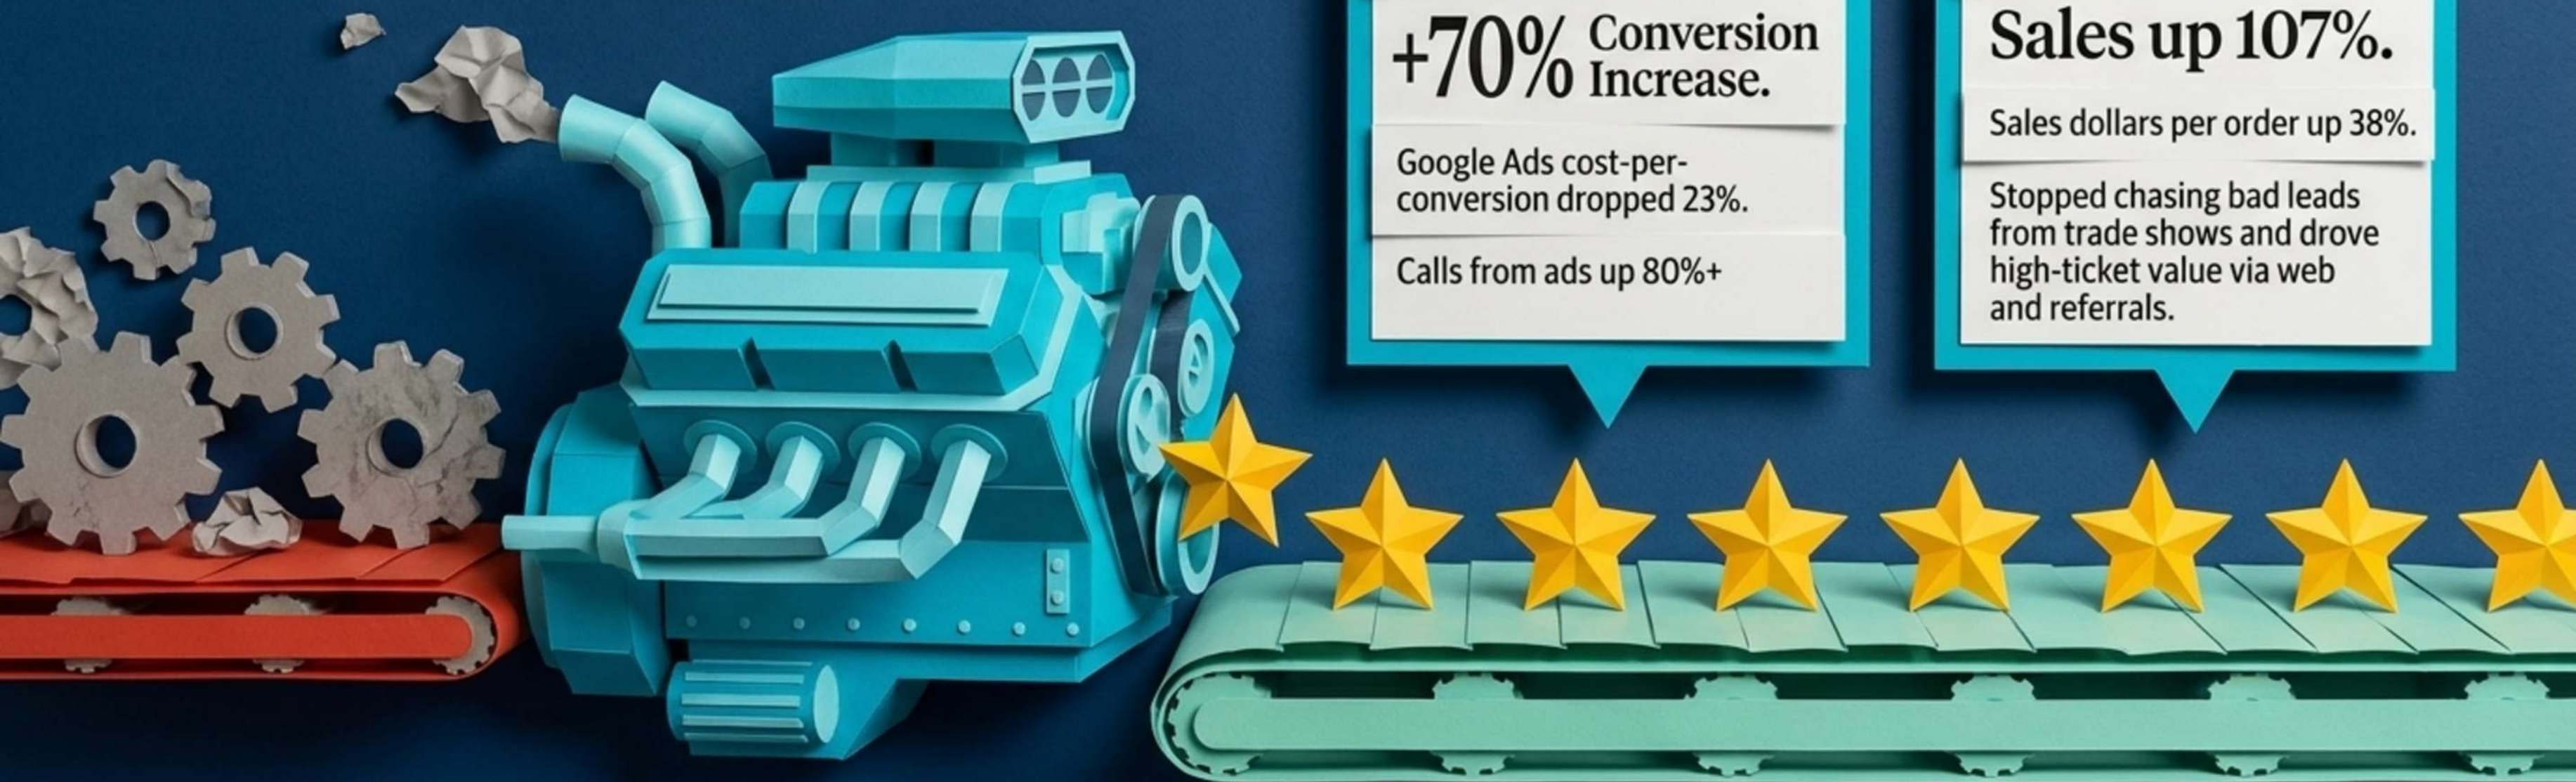

The Result

Utter messaging clarity. Instant internal alignment across the team. They signed an ongoing retainer immediately, anticipating highly qualified leads and a drastically lower cost-per-lead.

Exhibit B: The “Whole-Funnel” Growth Engines.

This is what happens when Strategy meets Full Multi-Channel Execution.

High-End Remodeler

+70% Conversion Increase.

Google Ads cost-per-conversion dropped 23%.

Calls from ads up 80%+

Ductless HVAC

Sales up 107%.

Sales dollars per order up 38%.

Stopped chasing bad leads from trade shows and drove high-ticket value via web and referrals.

The Ductless HVAC Company & The Quality Purge

The Trap: High lead volume, but they were low-quality, low-dollar, and non-ideal. Lots of activity, deeply frustrating ticket values.

The Pivot: Refocused entirely on high-value personas. Rebuilt the web presence with service "hub pages," full SEO, and stopped wasting money on bad trade shows.

The Results:

- Sales:
UP 107%
- Sales Dollars Per Order:
UP 38%
- Goal Completions:
UP 192%

Marketing isn't just about turning the faucet on; it's about filtering the water. They doubled revenue by targeting people who actually wanted to buy.

The Family Dental Clinic & The 3,400% Explosion.

The Starting Line:

A new owner inherits a clinic seeing a paltry ~10 active patients a month. A classic “best-kept secret” problem.

The Execution:

Full whole-funnel build. Website redesign, SEO, email automation, direct mail, and quarterly planning.

The Unarguable Math

Production:	UP 300%
SEO Traffic:	UP 1,287%
Goal Completions:	UP 3,461%
Patient Volume:	From ~10 to 70+ a month (923 total calls generated)

Three thousand four hundred percent.

That is not a typo. That is what happens when you abandon “random acts of digital flailing”.
