

Building the Next Generation of Prevention

At least **1 in 4 girls** and **1 in 20 boys** experience sexual abuse.

(Centers for Disease Control and Prevention. About child sexual abuse. <https://www.cdc.gov/child-abuse-neglect/about/about-child-sexual-abuse.html>)

Despite decades of prevention research, parents have never been the central focus of a rigorously designed, evidence-based prevention program. **Olley is Support Over Silence's** direct response to that gap.

Developed entirely in 2025 and entering pilot testing in 2026, Olley is the first parent-facing child sexual abuse prevention program of its kind. With guidance from an advisory board of **11 subject matter experts** who met five times throughout the year, Olley was built with care, rigor, and deep respect for the families it will serve.

Olley equips parents with real skills - not fear-based warnings - and builds the kind of confident, connected families that protect children best.

*From concept to pilot-ready in a single year.
We can't wait to share **what comes next.***
