His signature workshop, The Alignment Lab, helps organizations trade burnout for ownership in 60 minutes. Kevin has delivered keynotes to audiences of up to 600. SIGNATURE 60-MINUTE WORKSHOP

THE ALIGNMENT LAB

Most teams do not have an effort problem. They have an alignment problem. Capable people work hard, yet competing priorities, unclear ownership, and uneven follow-through create friction.

Like a dull knife, misalignment requires more force and creates more waste. Drawing from corporate leadership, education, professional kitchens, entrepreneurship, and elite athletics, Kevin sharpens how teams communicate, prioritize, and execute.

Guided reflection, partner debrief, group Q&A, and the signature Get Sharp exercise lead participants through:
