Tour Highlights

There has never been a better time to visit Lake Eyre! After Western Queensland's extensive rainfall, much of that water has made its way south, through the Diamantina and other river systems that flow into Lake Eyre.

The recent flood levels in some river areas which feed into Lake Eyre are as high as those seen in the 1974 major flooding event, which filled Lake Eyre to a depth of 5.7m. The changing colours of the landscape during this time are best appreciated from the air.

Overnight Outback accommodation at Birdsville and Tibooburra add to this unique experience.

 **Tour Duration**
3 days

 **Tour Departure**
From our private lounge at Archerfield Airport, Brisbane.

Exclusive tours to stunning destinations

Our Lake Eyre Escape takes you to the best vantage points over and around Lake Eyre. We fly the King Air aircraft on this tour, meaning that you travel at speeds over 500km/h minimising time spent travelling between our destinations.
