Reliable, Local, Fast, Trusted Internet!

INFRASTRUCTURE TECHNICIAN

CONNECT THE WORLD

Build the Connections That Keep Communities Running

We're looking for a hands-on, reliable Installer / Infrastructure Technician to join our growing rural internet team. Trade the cubicle for open skies. If wide-open spaces and big views are what drive you—and working at heights gets your adrenaline going—this is your chance to climb higher with a team that brings high-speed connectivity to underserved communities.

Why Start your Next Adventure With Us:

- ✓ Competitive hourly wage (based on experience)
- ✓ Company vehicle (for work use)
- ✓ Training and certification opportunities (including fall protection & tower safety)
- ✓ A supportive, team-oriented work environment
- ✓ Opportunity to grow with a rapidly expanding rural network provider

What You'll Do:

- Install and service fixed wireless internet systems (antennas, radios, towers, customer premises equipment)
- Perform site assessments and signal testing in rural and remote areas
- Build and maintain network infrastructure including towers, mounts, and cabling
- Troubleshoot connectivity issues and complete service calls
- Maintain accurate service records and communicate with dispatch/support teams
- Provide professional, friendly service to customers on-site
- Assess and troubleshoot equipment on site and/or over the phone
- Ability to handle a physically demanding workload which includes heavy lifting, crawling in confined spaces and working in all weather conditions
- Comfortable working safely at heights due to extensive ladder work, manlift work, tower climbing, (up to 100 ft freestanding towers) and working on roofs

What you Bring:

- Post-secondary education related to Technology/Engineering would be considered an asset
- Experience in telecommunications, wireless internet, electrical, or similar field preferred
- Comfortable working at heights (tower climbing experience is an asset)
- Strong mechanical aptitude and problem-solving skills
- Ability to work independently in rural environments
- Valid Class 5 Driver's License (Class 1 or 3 considered an asset)
- Basic networking knowledge (IP addressing, routers) is an asset
- Willingness to travel daily within rural service areas
- Self-motivated, demonstrate effective decision-making skills and can work with limited supervision

Please submit application including Cover Letter indicating Salary expectations
