

BSB to TOM Changes

Every place The Owner's Manual prints something different from the Berean Standard Bible. Updated October 7, 2026.

The Owner's Manual uses the Berean Standard Bible, or BSB, as its base text. The BSB is in the public domain. This list records every change we make to its words, so anyone can check our work. Highlights, underlines, notes, headings and chapter summaries are not changes to the Bible text and are not listed here.

GOD'S NAME: YAHWEH

APPLIES TO: EVERY BOOK

Where the Hebrew has God's personal name YHWH, the BSB prints LORD or GOD in capital letters. TOM prints Yahweh.

BSB PRINTS	TOM PRINTS
the LORD / The LORD	Yahweh
LORD (any other place)	Yahweh
Lord GOD	Lord Yahweh
GOD (in capitals)	Yahweh
the LORD's	Yahweh's

Lord, from Adonai, stays Lord. God, from Elohim, stays God. In the New Testament Lord, from Kyrios, stays Lord. The counts by book are below.

TEXT NOT IN THE EARLIEST MANUSCRIPTS

APPLIES TO: NEW TESTAMENT

When the BSB moves a verse or phrase to a footnote because the oldest manuscripts do not have it, TOM puts it back in the text inside [square brackets], using the BSB footnote wording. Long passages that are already in the BSB text get one pair of brackets around the whole passage.

Each one is listed in the verse by verse table.

BOOKS BETWEEN THE TESTAMENTS

APPLIES TO: 1 AND 2 MACCABEES, SIRACH, WISDOM OF SOLOMON, 1 ENOCH

These books are not from the BSB at all. The BSB does not include them. The Owner's Manual translated them from the Greek of Henry Swete's Septuagint, 1890s, following BSB style. The Prologue to Sirach is translated from Swete's Greek (from the complete Swete text, eliranwong/LXX-Swete-1930). 1 Enoch: chapters 1 to 32 and 89:42 to 49 are translated from the Greek in Swete; the rest is R. H. Charles' 1917 English translation of the Ethiopic (public domain), rewritten in modern English. Nothing here changes BSB wording, so they have no verse rows below.

Translator notes and the places where Swete's printed Greek was corrected are kept in apoc_src/ in bible_build.zip.

MODERN MEASURES, WEIGHTS AND MONEY

APPLIES TO: EVERY BOOK (OLD TESTAMENT SINCE LEVITICUS, OCT 3 2026; GENESIS, EXODUS, ISAIAH, MICAH AND THE NEW TESTAMENT SINCE OCT 7 2026)

TOM prints modern words for every ancient measure, weight and coin, so no reader has to know what a cubit or a shekel is (Nate: keep it idiot proof). Values are the same in every book, like the CSB where it has a number.

BSB PRINTS	TOM PRINTS
cubit	about 18 inches
handbreadth / span	about 3 inches / about 9 inches
shekel (of silver)	about 0.4 ounce

BSB PRINTS	TOM PRINTS
beka (half shekel)	about a fifth of an ounce
mina	about 1¼ pounds
talent (weight)	about 75 pounds
omer / tenth of an ephah	about two quarts
seah	about six quarts
ephah	a little over half a bushel
homer / cor	about six bushels
hin / bath	about a gallon / about 5½ gallons
denarius / drachma	a day's wage / a silver coin
talents in Matthew 18 and 25	bags of gold, like the NIV
minas in Luke 19	pounds of silver, like the KJV
stadia / fathoms	miles / feet

Each verse is listed in the verse by verse table with the original words and the reason. Quotes from ancient writers in From History boxes keep their own words.

1 Timothy 3:16	He appeared in the flesh	God was manifest in the flesh	KJV wording restored (Nate's call). The BSB follows the oldest Greek copies, which read who, rendered He appeared.
