JANE'S STORY

I went from farm girl to explosives engineer to building an eight-figure property portfolio and teaching 30,000 Australians to invest. Along the way I saw the real pattern: it was never the strategy holding people back — it was where they got in their own way. So my work evolved into mindset and business coaching, building financial security through both.

Since December 2022 I've used AI to replace 25 hours of my working week — and taught others to reclaim their time and deepen their client connections the same way. Then my dad got sick. I stepped away — two months caring for him, then supporting my mother and family afterwards — and my AI-enabled team kept all three of my companies running without me.

That's when I understood: AI doesn't just create efficiency. It creates the space to live what actually matters.

BIO

Jane Slack-Smith is an AI pioneer, twice Australian Mortgage Broker of the Year, and author of *Your Property Success* — named by Qantas Magazine one of the four most influential people in wealth creation for everyday Australians. Through Your Success Club and her podcast *Exit the Matrix: Stories of Success*, she helps high performers use AI to reclaim their time and design lives of true abundance.

JOIN THE EXPERIMENT

Fascinated by AI, intuition, and breaking free from societal conditioning? Jane runs **live experiments in abundance** with her Facebook community — cutting-edge insights, real-time breakthroughs, and an open invitation for your listeners to take part.

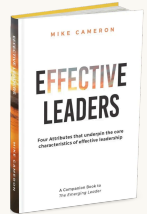

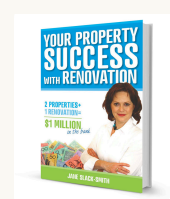

WHY YOUR AUDIENCE WILL LOVE HER

Everyone else teaches AI tools or transformation. Jane does both — **in sequence**. She's the crash-test dummy of the AI age — testing everything on her own life and businesses first, with an explosives engineer's risk discipline and a wealth educator's 20-year track record. Her method bridges **the woo** (intuition — a Window of Opportunity), **the wow** (neuroscience), and **the how** (AI and strategy) — so your listeners don't just get faster. **They get freer.**
