## Everybody's Talking

**Shared feast:** Over 3,000 residents came together for a community meal that stretched 5,280 feet (1.6 km) through Denver, Colorado (U.S.). Organized by the nonprofit Longer Tables, the "Mile Long Table" brought locals, volunteers, and visitors to one continuous line of seats in the heart of downtown. Farmers, chefs, and sponsors contributed food and support, turning the event into a large-scale neighborhood picnic. Some attendees even reunited with loved ones flown in by surprise through a sponsoring airline. The meal encouraged strangers to connect face-to-face and share stories. Organizers hope to make the gathering a yearly tradition and inspire other cities to create their own tables of connection.

**Bee boost:** Oxford, England, researchers developed a new bee feed using modified yeast that mimics the nutrients bees gather from pollen. The project aims to support colonies struggling with the decline of native flowering plants. Through fermentation, scientists produced sterols, natural compounds vital for bee growth and energy. Test colonies raised more young and stayed active longer when fed the nutrient-rich mixture. The yeast, altered through genetic methods, offers the same essential lipids as pollen but in a steadier form. Experts say this advance could strengthen pollination systems and boost global food yields, helping bees survive as their natural food sources continue to decline.

**Secret snake:** In the forests of Barbados, scientists have confirmed the reappearance of a snake species unseen for decades. Hidden beneath a rock during a wildlife survey, the Barbados threadsnake turned out to be the smallest known snake on Earth. Barely the length of a finger, it burrows through soil and roots, rarely surfacing in daylight. Researchers verified its identity under a microscope before returning it safely to its habitat. The finding offers hope that other species presumed lost may still survive in the island's shrinking forest reserves. Conservationists view this rediscovery as a reminder of how fragile these remaining ecosystems are, and how easily their rarest inhabitants can slip away again.

**Plastic threads:** An engineering student in Baltimore, Maryland (U.S.), has created a method to turn leftover party cups into wearable fabric. Her company, The New Norm, repurposes the plastic from discarded cups into yarn used for sweaters and hats. By combining the plastic with eco-friendly materials, the finished fabric stays soft while avoiding the microplastic shedding of standard polyester clothing. Each piece is 3D-knitted in one seamless process, reducing waste and stitching. The pastel colours come directly from the cups themselves, without added dyes. Production now runs through U.S. facilities, turning single-use plastic into sustainable fashion that redefines how waste can be worn.

**CANCER**  
(June 21 – July 22)

Is there something heart-felt that you haven't yet achieved? At the end of the week, you may get a chance at it, but you might need to actively seek and manifest it. Lucky numbers: 6, 9, 17, 19, 24, 41.

**LEO**  
(July 23 – Aug. 22)

Leos tend to lead with their heart over their head. But for the next few weeks, you may have a chance to develop a more balanced approach to decision making. Lucky numbers: 11, 12, 16, 29, 38, 39.

**CAPRICORN**  
(Dec. 22 – Jan. 19)

For the next few weeks, you may find that your grounded nature is disrupted. You can just ride it out or use it to make an adjustment to develop more flexibility. Lucky numbers: 10, 15, 22, 24, 32, 42.

**AQUARIUS**  
(Jan. 20 – Feb. 18)

## Did You Know...

**Pickle day:** National Pickle Day (U.S.) on November 14th celebrates everything from sweet to spicy varieties, giving fans a reason to enjoy the tangy treat in many forms. Legends even suggest Cleopatra linked her beauty to a steady diet of pickles.

**Air sailors:** Female argonaut octopuses trap pockets of air inside their delicate shells to move with precision through the ocean. This clever trick helps them glide efficiently while conserving energy and keeping their eggs safe in the deep sea.

**River roots:** The rock band Puddle of Mudd got its name after floodwaters filled their rehearsal space in Kansas City, Missouri (U.S.). Years later, a demo tape connected them to the industry, setting the stage for their breakout success.

**Monkey mail:** In the mid-1900s, Sears catalogs didn't just sell clothes and tools, they even offered live monkeys by mail. The unusual listings made the family catalog seem more like a miniature zoo than a shopping guide.

**Gum ban:** Ordinary chewing gum is off-limits in Singapore. Importing gum, selling it, or carrying it without a doctor's note is against the law, with only prescribed dental gum allowed under tightly controlled medical rules.
