Sunspell
SPRAY TANS

01 / YOUR SUNSPELL EXPERIENCE

Welcome to Sunspell

How your tan works

DHA creates temporary color in the outer layer of your skin. The immediate cosmetic bronzer is a guide color that rinses away.

Your color keeps developing after rinsing. Allow up to 24 hours for your developed result. Skin, preparation, and aftercare affect wear.

Sunspell Signature

Mobile tan: $75 standard price
20% off for the first 50 clients: $60

Included with your tan

- Consultation, shade selection, and professional BAKD Sunless application.
- Prep spray, post spray, blending, and Velvet Finish setting powder.
- Your personal application and aftercare instructions.

Optional upgrades and Norvell additive drops cost extra.

Henderson location available. Mobile service throughout Henderson and Las Vegas. Additional travel fees may apply depending on distance and are confirmed before booking.

02 / SOLUTION & POWDERS

Your Finishing Touch

Professional BAKD Sunless

We discuss your skin tone, past tans, and desired depth to choose your color. Your formula is personalized.

Velvet Finish

INCLUDED WITH YOUR TAN

A soft, silky finishing powder with shimmer to help take away tackiness while your tan develops.

Prefer no shimmer? Please discuss your preference with me before application.

Moonlit Veil

+$5 SHIMMER / GLOW UPGRADE

An optional finishing powder for a subtle shimmer and glow.

Powder does not change your assigned rinse time. Share ingredient sensitivities before application.

03 / OPTIONAL ADDITIONS & MOBILE

Personalize Your Appointment

Prep spray, post spray & blending

INCLUDED WITH YOUR TAN

Preparation and finishing sprays, plus blending for an even finish, are included at no additional charge.

Norvell additive drops - $3 each

- Vitamin Bath
- Hydration Lift
- Collagen Boost
- DHA Boost

We discuss available options and suitability before application. Hydration additions do not make a tan waterproof.

Extra layer - $10

An optional extra layer for your desired result, when suitable. Blending is always included.

For mobile visits

Please provide a private, ventilated space with room for the tent and access to power. Any travel fee is confirmed before booking.

04 / PREPARE YOUR SKIN

Before Your Visit

Plan ahead - two days before

- Weddings, special events, and trips: aim to tan about two days beforehand.

- Consider a trial tan before a wedding or important occasion. Allow time for your rinse and color development before travelling.

The day before

- Gently exfoliate and remove old self-tan. Focus on elbows, knees, ankles, and dry areas. Avoid scrubbing irritated skin.

- Shave about 24 hours ahead when possible. Schedule waxing earlier so your skin can settle.

- Complete nails, facials, massages, and other beauty appointments before your tan. Allow skin to recover from irritating treatments.

05 / ARRIVE READY

Your Appointment & Comfort

On appointment day

- Arrive with clean, dry skin. Skip lotion, oils, deodorant, perfume, and makeup on sprayed areas.

- Wear dark, loose long sleeves and pants with open shoes. Remove socks and jewelry. Avoid jeans, leggings, and snug straps.

Coverage during your tan

- Men are required to wear undergarments.

- Adult women may tan nude or wear underwear, a swimsuit, or disposable underwear and a bra. Choose what feels comfortable; your privacy is respected.

- Under 18: undergarments and appropriate chest coverage are required. A parent or legal guardian must stay throughout and sign consent.

I guide your positions and drying. Discuss eye, lip, nose, and breathing protection before application. You may pause or ask questions anytime.

Developing & Your First Rinse

Your appointment details

Appointment date

First rinse date & time

Before your rinse

- Stay dry. Avoid sweat, swimming, rubbing, and skin-to-skin contact. Keep clothing loose and purse straps off sprayed wrists and shoulders.

- Do not sleep in your tan unless instructed. If advised, wear loose long sleeves and pants without socks; use dark bedding.

Your first rinse

- Use lukewarm water and your hands until the bronzer runs clear. No soap, shampoo, loofah, shaving, or scrubbing unless instructed otherwise. Pat dry.

- Looking lighter is normal. Your color continues developing for up to 24 hours. Follow your assigned time; longer is not automatically better.

- Resume soap and moisturizer 24 hours after application, unless instructed otherwise.

07 / CARE FOR YOUR COLOR

Aftercare & Booking Policies

After 24 hours

- Begin moisturizing 24 hours after your appointment, unless advised otherwise, then moisturize daily. Use gentle cleanser and pat dry.

- Avoid exfoliating gloves, scrubs, and skin resurfacing products.

- Hot tubs, pools, oceans, lakes, rivers, and long soaks can speed fading. Avoid sweat and perfume on sprayed skin for 24 hours. Later sweat and friction can also affect wear.

- Use sunscreen: a spray tan provides no sun protection. Results and wear vary.

DHA lotion & body wash

Ask about our DHA lotion and body wash before your appointment so I can have them available for you.

Skin concerns & questions

Disclose allergies, sunburn, irritation, and recent treatments. Ask about ingredients or areas to avoid. Do not stop prescribed treatments on your own.

Report discomfort or an unexpected reaction promptly. For result questions, send your application and rinse times and a clear photo.

Cancel or reschedule

Please give at least four hours notice to cancel or reschedule.

08 / REVIEW & SIGN BEFORE APPLICATION

Consent & Care Acknowledgment

Client full name

Allergies, sensitivities & previous reactions (or none known)

I understand that tanning sprays, powders, and add-ins may cause irritation or allergic reactions, even after previous use without a reaction. I have listed my known allergies or written "none known," and will report discomfort to Haley.

Initials

I understand that skin pH, preparation, and aftercare affect color development. A specific shade or length of wear is not guaranteed.

Initials

I have read and will follow the prep, rinse, and aftercare instructions. Bronzer can transfer to fabric. A spray tan provides no sun protection.

Initials

I understand the coverage rules. Eye, lip, nose, and breathing protection must be discussed with Haley before application. I may ask questions, pause, or stop. I understand the four-hour cancellation and rescheduling policy.
