

# Transform Site and Project Management with **WMS**

Simplify Your Construction Projects from Start to Finish

## Unlock total control & visibility across all your sites & projects with WMS

Our Sites and Projects Module empowers your team to manage every aspect of construction from initial planning to final completion without the inefficiencies of manual processes.

### Centralised Project Dashboard

View project status, progress, costs, & milestones in real-time.

### Project Task Management

Assign, track, & manage tasks with automated reminders.

### Site Defects & Issue Tracking

Report & resolve site defects instantly with real-time notifications.

### Geo-Fencing & Attendance Tracking

Monitor site access and time logs using geo-fencing.

### Digital Site Diaries

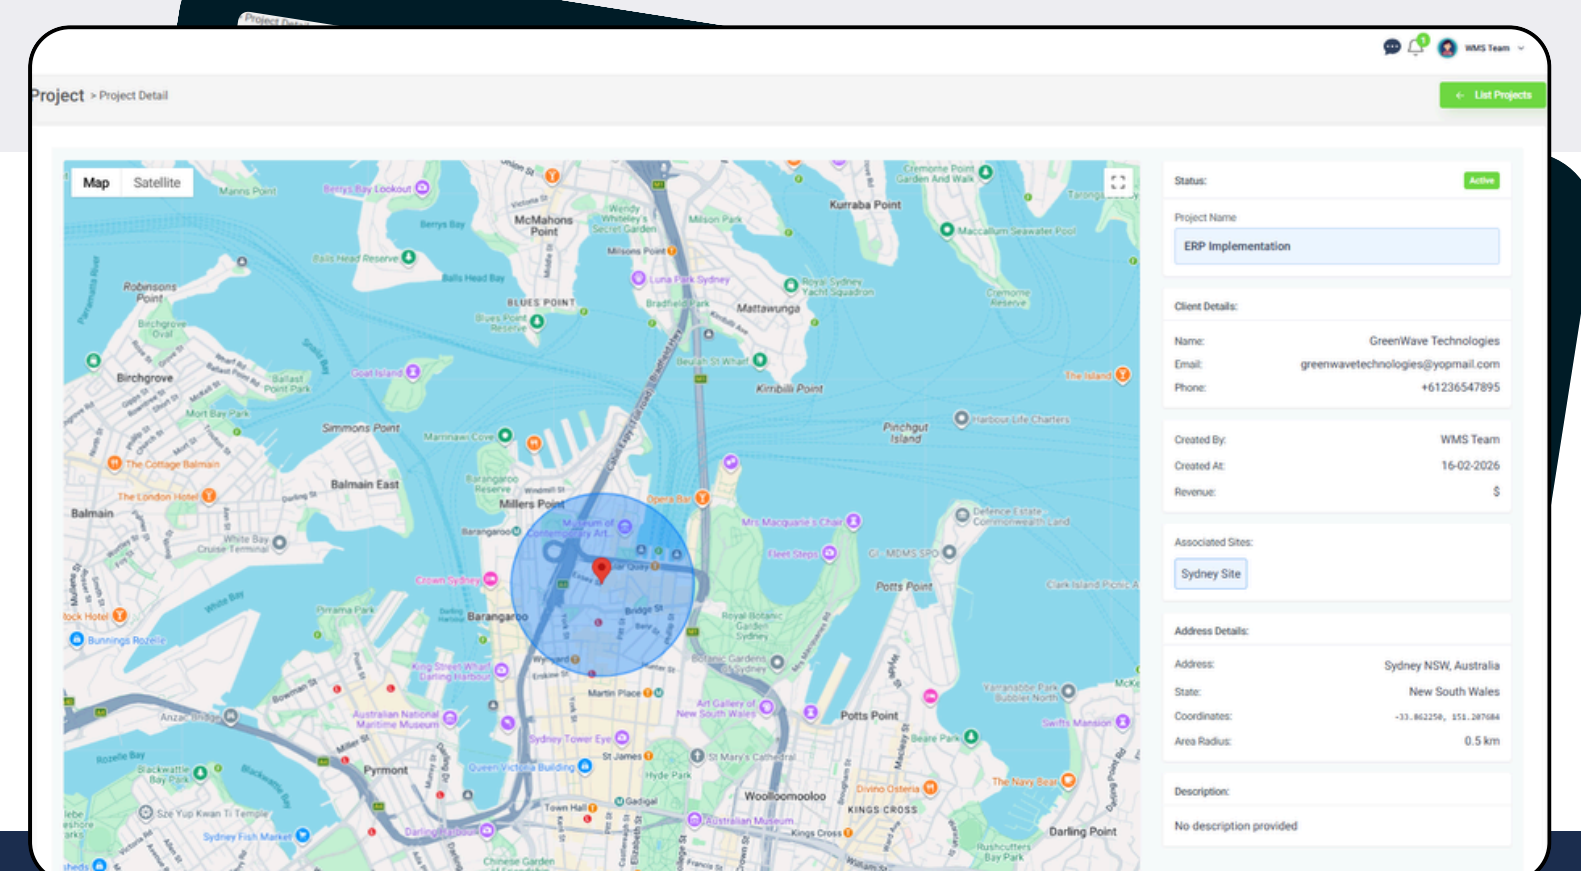

Record daily site activities & share updates easily via mobile app.

### Automated Reports & Insights

Generate custom reports for faster, data-driven decisions.

WMS's Sites & Projects Module centralises construction management, streamlines communication, and delivers real-time insights helping teams make smarter decisions and keep projects on time and on budget.
