Judges comments

Dr Tran, congratulations on being a finalist.

The judges were struck by how far Mildura Family Dental has come since you took it on, and by how much of that you've done early in your career. It is clear you care about building something lasting, for your team and for the town. You've put real effort into helping the people who work with you do their best, and into learning how to lead well yourself.

The judges were also intrigued by your unique and innovative approach to the practice principal role, and they are looking forward to seeing how it develops.

The practice feels like part of Mildura. Your visits to local schools, your support for community groups and your efforts to make care easier for people who travel to see you all show how much the community matters to you. Your plans to encourage new graduates to consider regional dentistry are a good example of looking ahead for the profession.

Thank you for sharing your journey, and congratulations again on being a finalist.
