Thank You For Subscribing!

Hi,

*Sejour Family*

Spring doesn't arrive with noise. It arrives with a shift — lighter air, longer light, and a quiet sense that it's time to shed what winter left behind. This month, we're talking about your skin, your confidence, and the kind of transformation no one can quite put their finger on. The best kind.

*Your Skin Is Changing.*  
**Here's What It Needs Now.**

The shift from winter to spring is one of the most significant seasonal transitions your skin navigates. Humidity rises. Oil production increases. UV intensity climbs quietly before you notice. What worked in March is already working against you.

**Stop: heavy occlusives, over-exfoliating, and layering too much product. Spring skin needs to breathe.**

Start: targeted hydration, SPF 50 daily, and correction treatments that address what winter actually did to your skin.

Book: a spring skin consultation — a 20-minute reset that maps your next three months of skin strategy.

**April consultations are now open—and availability is limited.**

# The Treatments Everyone's Quietly Investing In.

## Resurface

### CO2 Laser

The gold standard. Deeper results. The kind that make people wonder what changed.

## Sculpt

### Morpheus8

Tightening and contouring — face and body. Precision lift without a trace.

## Refine

### Facial Balancing

Subtle. Undetectable. Enhancements that look like you, perfected.

"Not overdone. Just elevated."

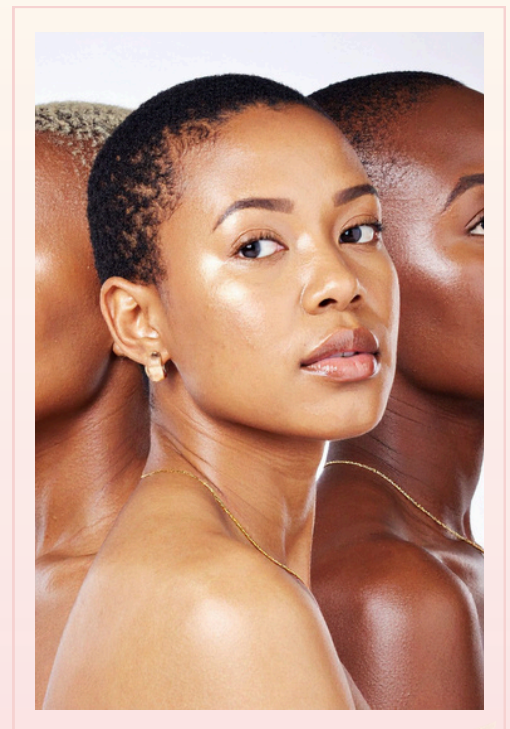

## The 'No One Can Tell, What You Did' Glow.

The most beautiful results are the ones that look like nothing happened — and everything improved. This is the philosophy behind combination treatment at Séjour. Tox softens. Filler restores. Skin treatments illuminate. Together, they create results that look effortless because they were done right. Less is more — but only when less is done with precision. Our providers are trained to see the whole, not just the parts. That's what separates a refresh from a result.

Natural-looking results that enhance, never alter

Combination treatments tailored to your anatomy and goals

**Education-first approach — you'll always know what we're doing and why**

# Spring Reset:

## Inside Our Signature Skin Plan.

The most transformative results come from sequence, not single treatments. Here's how we think about it.

### Detox

HydraFacial + lymphatic drainage. Clear the canvas.

### Correct

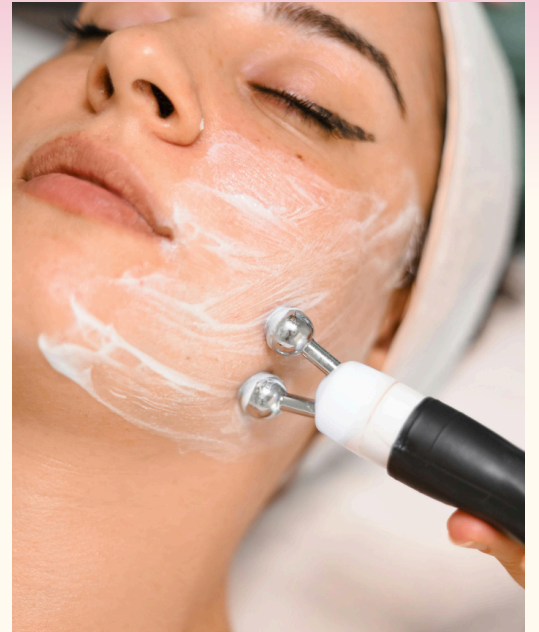

Chemical peel or microneedling. Address what's underneath.

### Tighten

Morpheus8 or CO2 Laser. Firm, resurface, and sculpt.

### Maintain

Medical-grade skincare to protect what you've invested in.

[Reserve your consultation](#)

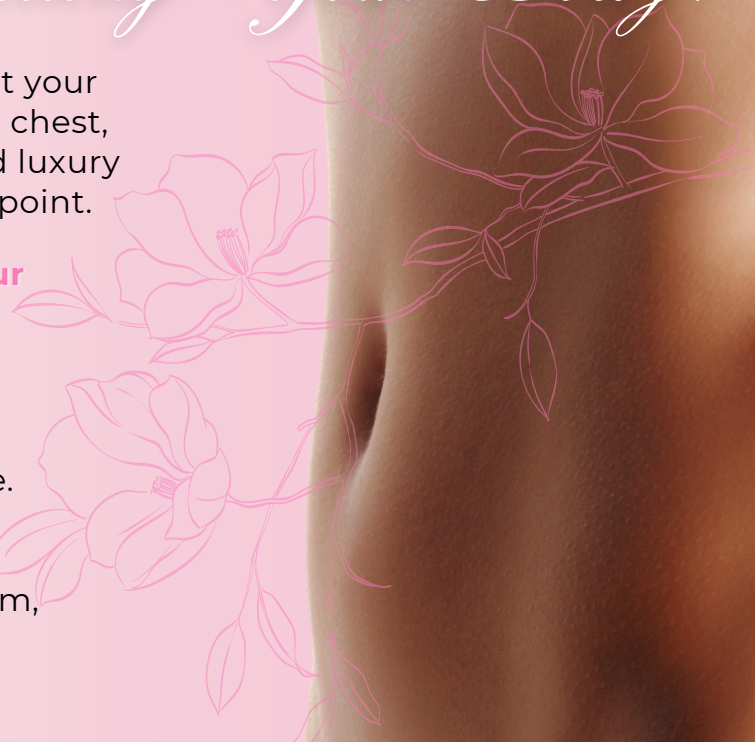

## Treating Your Face.

## *But Forgetting Your Body?*

Your skincare routine shouldn't end at your jawline. Your aging doesn't. The neck, chest, arms, and abdomen tell a story — and luxury aesthetics shouldn't have a stopping point.

**"Luxury skincare doesn't stop at your jawline."**

Skin tightening for the abdomen. Crepey texture on arms. Neck and chest aging that no neckline can hide. These are the conversations we love having — because the results change how you feel in every outfit, every room, every season.

# What We're Loving Right Now at *Sejour*

## Product Spotlight

### **Séjour C+ Complex**

Our lightweight vitamin C serum — brightening, barrier-loving, and fast-absorbing. Professional-grade radiance in a bottle.

## Client Favorite

### **HydraFacial**

Spring's most-booked treatment — instant glow, zero downtime, and results you feel the moment you leave the chair.

## Have You Met Her?

### **Barbara**

The expertise behind your results — and the warmth you feel every time you're in her chair.

## Now Available

# *Séjour C+ Complex*

### **Sejour Medical Aesthetics presents The Sejour C+ Complex**

A high-performance vitamin C serum formulated for all skin types — including sensitive.

Lightweight, non-irritating, and designed to brighten dullness, fade hyperpigmentation, and restore radiance. It's part of our Séjour Signature Treatments for a reason: the results speak clearly.

# Soft Structure + Skin. This Season's Everything

Spring dressing isn't about trends — it's about ease. The palette this season moves in neutrals: cream, blush, soft taupe, white. Fabrics that breathe — linen, silk blends, something that moves when you do. Minimal jewelry with intention. A gold cuff. A sleek bag. Nothing competing for attention.

A tailored sleeveless blazer. Relaxed trousers or a fluid midi skirt. Bare arms, bare confidence. Let the skin be the statement — which means this is the season to make sure it's saying exactly what you want.

*"When your skin is healthy glowing, you don't need to overdo anything else." - Barbara*

## Sejour Sip of the Month

### Mango pineapple

#### Ingredients:

- Mango
- Pineapple
- Fresh pressed cane juice

A tropical burst of juicy mango and tangy pineapple blended with naturally sweet, freshly pressed sugarcane juice. This vibrant, refreshing drink is rich in vitamins and natural energy — perfectly balanced with a cool hint of mint for a clean, revitalizing finish.
