OUR 8 GROWTH EXPECTATIONS (Your Commitment to Winning):

1. **Invest in Data, Reap the Rewards:** More ad spend on Facebook = more data = better results. This is how we win.
2. **Think Like a Growth Scientist:** Test ONE variable at a time. Methodical, not manic.
3. **If It Ain't Broke, DON'T FIX IT (But Amplify It!):** When something works, we scale it, not endlessly tinker for the sake of "testing."
4. **Mass Ad Testing is Dead:** Facebook's auction favors ONE powerful ad per audience. We test ONE AD at a time with precision.
5. **No Emotional Reactions, Only Data-Driven Decisions:** The most important metric is **CASH ROAS / CPA**. Everything else is a guide. Ditch vanity metrics.
6. **This is a Marathon, Not Just a Sprint (But Sprint Within the Marathon):** True growth takes time. Commit to the long-term vision, with relentless short-term execution.
7. **Be Metric-Obsessed:** Understand your numbers. Commit to our metric system. This is how we navigate.
8. **Outside The Brief? ASK!** If you need something beyond this blueprint, let's talk. We offer extra firepower for specific missions.
