TONY CHILD

Founder, Elevated Worldwide

Tony Child is the Founder of Elevated Worldwide, a personal and professional development company that helps people think differently, see what's possible and move forward.

Tony spent 15 years in banking. He says his life changed when Bob Proctor gave him a program to do every day and he leaned all the way in. He created GratiShift, a 30-day gratitude program, wrote *VisionShift*, and co-wrote the free book *PowerJumps* with Bill Banta and Nicole Kernohan. Tony has coached professional athletes, Olympians and company founders.

His teaching starts from one idea: right now, you are enough, and there's more in you.
