VA Internal Ordering

For VA clinicians and Prosthetics

ABOUT VEINOPLUS®

VEINOPLUS® is a pocket-sized, battery-powered neuromuscular stimulator. Two electrodes on the calf deliver low-frequency impulses that produce rhythmic contractions of the **calf muscle pump**. The patient self-administers at home.

FDA-CLEARED INDICATIONS

- Increasing local blood circulation
- Immediate post-surgical stimulation of calf muscles to prevent venous thrombosis
- Prevention or retardation of disuse atrophy
- Muscle re-education
- Maintaining or increasing range of motion
- Relaxation of muscle spasms

ITEM AND CONTRACT DETAILS

Item number	**D-0001**
Item description	**VEINOPLUS 3.0 Vascular Neuromuscular Stimulator**
FSS contract	**36F79723D0020**
FSS price	**$1,575.00 each**
Contract holder	Government Solutions and Services, LLC · **SPD@GS2GLOBAL.COM · (502) 475-4199**
Electrodes	A one-year supply is included with VA orders. Resupply is ordered separately on the FSS.

VEINOPLUS® is in use at VA Medical Centers and has been ordered through VA Prosthetics on FSS 36F79723D0020. Current VA references are available on request.

THREE STEPS TO ORDER

1 Clinician enters consult

The VA clinician enters a Prosthetics consult for the Veteran, using the wording below and the indication that applies.

2 Prosthetics orders

Prosthetics processes the order based on the clinician's consult: Item **D-0001** on FSS **36F79723D0020**.

3 Veteran receives device

The device is furnished to the Veteran for home use, with a one-year supply of electrodes.

COPY THIS INTO THE CONSULT

Prosthetics consult: **VEINOPLUS 3.0 Vascular Neuromuscular Stimulator** for home use. Indication: _____ (e.g. prevention or retardation of disuse muscle atrophy / increasing local blood circulation / immediate post-surgical stimulation of calf muscles to prevent venous thrombosis). Laterality: R / L / bilateral. 60-minute sessions per physician direction. Patient self-administers at home. Item **D-0001** on FSS **36F79723D0020**. Include electrode resupply.

Contraindications: cardiac pacemaker or other implanted electronic device, active DVT at the treatment site, severe arterial insufficiency, uncontrolled congestive heart failure.

Caution: Federal law restricts this device to sale by or on the order of a physician. Please refer to the VEINOPLUS® IFU for complete indications, contraindications, warnings, and precautions.

VA Community Care

For community providers treating Veterans

ABOUT VEINOPLUS®

VEINOPLUS® is a pocket-sized, battery-powered neuromuscular stimulator. Two electrodes on the calf deliver low-frequency impulses that produce rhythmic contractions of the **calf muscle pump**. The patient self-administers at home, in 60-minute sessions per physician direction.

FDA-CLEARED INDICATIONS

- Increasing local blood circulation
- Immediate post-surgical stimulation of calf muscles to prevent venous thrombosis
- Prevention or retardation of disuse atrophy
- Muscle re-education
- Maintaining or increasing range of motion
- Relaxation of muscle spasms

HOW YOUR OFFICE SUBMITS THE REQUEST FOR SERVICE

1 Complete the RFS

The prescribing provider's office completes **VA Form 10-10172** (Community Care Provider: Request for Service) and gathers the supporting records.

2 Submit directly to the VA

Send the RFS and records **directly to the Community Care office of the referring VA Medical Center**, the same office your practice already works with.

3 The VA reviews

The Community Care office reviews the request and responds to your office with its determination.

DEVICE DETAILS FOR THE REQUEST

Device	**VEINOPLUS 3.0 Vascular Neuromuscular Stimulator**
HCPCS	**E0745** (neuromuscular electrical stimulator), where a code is required
VA contract	Item D-0001 on FSS 36F79723D0020 · Government Solutions and Services, LLC

HOW OUR TEAM CAN HELP

Questions about the process? Our team can walk your office through it.

Submit the RFS and records directly to your referring VA's Community Care office.

Our team can:

- Walk your office through the process
- Answer questions about the device and the contract
- Follow up on status

Your office:

- Completes the RFS and all clinical documentation
- Submits the RFS and records to the VA
- Works with the Community Care office on the request

Contraindications: cardiac pacemaker or other implanted electronic device, active DVT at the treatment site, severe arterial insufficiency, uncontrolled congestive heart failure.

Caution: Federal law restricts this device to sale by or on the order of a physician. Please refer to the VEINOPLUS® IFU for complete indications, contraindications, warnings, and precautions.
