YOUR POLICIES ARE THE FIRST THING COMMISSIONERS AND INSPECTORS CHECK.

They demonstrate how you manage risk, safeguard people, maintain quality, and deliver services consistently.

The problem is that many providers rely on generic templates that look compliant but fail to reflect how their organisation actually operates. Commissioners, inspectors, and procurement teams can spot the difference.

That's where AssuredBID comes in.

We help you develop policy frameworks that are tailored to your services and aligned with current regulatory expectations.

WHAT WE COVER IN OUR POLICIES PACK

*** Full suite of policies tailored to your service type and registered activities.**

*** Aligned to CQC Fundamental Standards and NICE guidelines.**

*** Structured to support tender submissions and inspections.**

*** Written in clear language your staff can understand and follow.**

*** Reflects how your organisation actually operates.**

- **SOME POLICIES WE OFFER**

• Business continuity plan (BCP) • Health and safety

• Medication • Infection control • Modern slavery

• Whistle blowing

The providers who pass first time aren't the ones with the most policies.
